

Inequalities

We solve inequalities just like equations. Inequalities are different from equations in two ways. First, they use different symbols. Second, solving an inequality means finding all of its solutions. A solution of an inequality is a number which when substituted for the variable makes the inequality a true statement.

NEW SYMBOLS!

Greater than	Greater Than or Equal to	Less than	Less than or Equal to
$>$	$\geq$	$<$	$\leq$

Are the following numbers solutions to the inequality $x \leq 8$

-1	yes	
0	yes	
$\frac{3}{8}$	yes	
8	yes	(Because it is also equal to!)
8.3	no	

An open circle ("o") means that the value is not included.

We use an open circle with the symbols $<$ and $>$.

A closed circle ("•") means that the value is included.

We use a closed circle with the symbols $\leq$ and $\geq$.

We show the solutions to an inequality by graphing them on a number line.

Let's graph the inequality used above: $x \leq 8$. The $\leq$ symbol indicates a closed circle.
