

## **Geometry Semester 2 Exam** (with Algebra Review Concepts)

### **INFORMATION:**

This end of year exam covers topics mainly from 2nd Semester, with an emphasis the concepts mostly from the last 6-9 weeks of the year. However, some skills that are used throughout the year are included, such as Special Right Triangles & Pythagorean Theorem.

The Exam has 33 questions from these categories:

| TOPIC                                              | # PROBLEMS |
|----------------------------------------------------|------------|
| Special Right Triangles & Pythagorean Theorem      | 4          |
| Properties of Parallelograms                       | 2          |
| Polygon Angles                                     | 1          |
| Trigonometry                                       | 1          |
| Perimeter/Area/Surface Area/Volume                 | 6          |
| Circles                                            | 5          |
| Algebraic Topics: Simplify Expressions & Factoring | 10         |
| TOTAL                                              | 33         |

Some problems have more than 1 concept impeded, such as an Area problem where the student first has to find the value of a missing side using Special Right Triangles or Pythagorean Theorem.

### **Semester Exam - Alternate Problems**

I included a document with possible "alternate" problems that you could pick any of the 33 problems from the Semester 2 Exam ... depending on teacher discretion, level of difficulty, and desired exam topics.

| TOPIC                                              | # PROBLEMS |
|----------------------------------------------------|------------|
| Special Right Triangles & Pythagorean Theorem      | 3          |
| Properties of Parallelograms                       | 1          |
| Perimeter/Area/Surface Area/Volume                 | 6          |
| Circles                                            | 5          |
| Change in Dimensions                               | 4          |
| Algebraic Topics: Simplify Expressions & Factoring | 5          |
| TOTAL                                              | 22         |
