Black Lives, Revised and Expanded Edition Robyn Maynard,2025-10-15T00:00:00Z The bestselling first edition of Policing Black Lives became a mainstay of bookshelves and classrooms across North America and Europe as the first comprehensive account of the state sanctioned surveillance criminalization and punishment of Black lives in Canada This revised and expanded edition updates the original text in the wake of global Black uprisings in 2020 and offers new insights on how to build liveable futures without policing Delving behind Canada s veneer of multiculturalism and tolerance award winning scholar and activist Robyn Maynard traces the afterlives of slavery across multiple institutions Maynard sheds light on the state s role in perpetuating colonial dispossession racial profiling police killings incarceration immigration detention deportation exploitative migrant labour practices disproportionate child removal and the school to prison pipeline as well as

the ubiquity of Black resistance The first new chapter meticulously documents how half a century of police reforms have served to undermine Black freedom struggles while expanding the scope and scale of policing in Canadian society In the second Maynard advances a compelling vision for making policing obsolete and building new forms of safety

Race and the Wild West Laura J. Arata, 2020-07-02 Winner of the Western Writers of America SPUR Award and the Western Association of Women Historians Gita Chaudhuri Prize Born a slave in eastern Tennessee Sarah Blair Bickford 1852 1931 made her way while still a teenager to Montana Territory where she settled in the mining boomtown of Virginia City *Race and the Wild West* is the first full length biography of this remarkable woman whose life story affords new insight into race and belonging in the American West around the turn of the twentieth century For many years Sarah Bickford's known biography fit into a single paragraph By examining her life in all its complexity Arata fills in what were long believed to be unrecoverable silent spaces in her story Before establishing herself as a successful business owner we learn she was twice married both times to white men Her first husband an Irish immigrant physically abused her until she divorced him in 1881 Their three children all died before the age of ten In 1883 she married Stephen Bickford and gave birth to four more children Upon his death she inherited his shares of the Virginia City Water Company acquiring sole ownership in 1917 For the final decade of her life Bickford actively preserved and promoted a historic Virginia City building best known as the site of the brutal lynching in 1864 of five men Her conspicuous role in developing an early form of heritage tourism challenges long standing narratives that place white men at the center of the Wild West myth and its promotion Bickford's story offers a window into the dynamics of race in the rural West Although her experiences defy easy categorization what is clear is that her navigation of social norms and racial barriers did not hinge on exceptionalism or tokenism Instead she built a life that deserves to be understood on its own terms Through exhaustive research and nuanced analysis Laura J Arata advances our understanding of a woman whose life embodied the contradictory intersections of hope and disappointment that characterized life in the early twentieth century American West for brave pioneers of many races

The Politics and Rhetoric of Collective Remembering John E. Richardson, Tommaso M. Milani, 2024-11-15 This book critically examines the ways that collective pasts are commemorated and contested in a wide variety of national locations media and genres Collective remembering is a dynamic process through which narratives about the past about us and them as well as beliefs values and affective conditions contained in these stories are produced and reproduced This facilitates room for not only the creation of unity but also the potential for contestation and conflict given that different interpretations of the past are often vehicles for opposing political interests This book reflects the geographical breadth and empirical depth of the field of collective remembering Foregrounding the idea that collective remembering always entails contestation individual chapters explore the field of remembrance and its various genres including murals memorials museums newspaper reports speeches textbooks tourist tours and the work of community activists in countries as diverse as Australia Germany Hungary Israel Italy

Hill,Richard W. Painter,2015-10-19 Taking financial risks is an essential part of what banks do but there s no clear sense of what constitutes responsible risk Taking legal risks seems to have become part of what banks do as well Since the financial crisis Congress has passed copious amounts of legislation aimed at curbing banks risky behavior Lawsuits against large banks have cost them billions Yet bad behavior continues to plague the industry Why isn t there more change In **Better Bankers Better Banks** Claire A Hill and Richard W Painter look back at the history of banking and show how the current culture of bad behavior dramatized by the corrupt cocaine snorting bankers of *The Wolf of Wall Street* came to be In the early 1980s banks went from partnerships whose partners had personal liability to corporations whose managers had no such liability and could take risks with other people s money A major reason bankers remain resistant to change Hill and Painter argue is that while banks have been faced with large fines penalties and legal fees which have exceeded one hundred billion dollars since the onset of the crisis the banks which really means the banks shareholders have paid them not the bankers themselves The problem also extends well beyond the pursuit of profit to the issue of how success is defined within the banking industry where highly paid bankers clamor for status and clients may regard as inevitable bankers who prioritize their own self interest While many solutions have been proposed Hill and Painter show that a successful transformation of banker behavior must begin with the bankers themselves Bankers must be personally liable from their own assets for some portion of the bank s losses from excessive risk taking and illegal behavior This would instill a culture that discourages such behavior and in turn influence the sorts of behavior society celebrates or condemns Despite many sensible proposals seeking to reign in excessive risk taking the continuing trajectory of scandals suggests that we re far from ready to avert the next crisis **Better Bankers Better Banks** is a refreshing call for bankers to return to the idea that theirs is a noble profession
