 personnel have collaborated to make it a complete exposition of what your duties as a pilot are how each duty will be
 performed and why it must be performed in the manner prescribed The techniques and procedures described in this book are
 standard and mandatory In this respect the manual serves the dual purpose of a training checklist and a working handbook
 Use it to make sure that you learn everything described herein Use it to study and review the essential facts concerning
 everything taught Such additional self study and review will not only advance your training but will alleviate the burden of
 your already overburdened instructors This training manual does not replace the Technical Orders for the airplane which will
 always be your primary source of information concerning the P 38 so long as you fly it This is essentially the textbook of the P
