Tracking People Anthea Hucklesby, Raymond Holt, 2023-08-30 Tracking technologies are now ubiquitous and are part of many people s everyday lives Large sections of the population voluntarily use devices and apps to track fitness medical conditions sleep vital signs or their own or others whereabouts Governments health services immigration and criminal justice agencies increasingly rely upon tracking technologies to monitor individuals whereabouts behaviour medical conditions and interventions Despite the human rights concerns of some organisations and individuals most wearers and their significant others tend to welcome the technologies This paradox is only one of the many fascinating challenges raised by the widespread use of tracking technologies which are explored in this book This book critically explores the ethical legal social

and technical issues arising from the current and future use of tracking technologies It provides a unique and wide ranging discussion via a cross disciplinary collection of essays on issues relating to technological devices and apps whose use is imposed upon wearers or suggested by others whether agencies or individuals including in the domains of criminal justice terrorism and health and social care Contributions from leading academics from across social sciences engineering computer and data science philosophy and health and social care address the diverse uses of tracking technologies including with individuals with dementia defendants and offenders individuals with mental health conditions and drug users alongside legal ethical and normative questions about the appropriate use of these technologies Cross disciplinary themes emerge focusing on both the benefits of the technologies freedom improved safety security well being and autonomy and increased capacity of and efficiencies for public services and the challenges implementation and operational costs mission creep privacy concerns stigmatisation whether the technologies work as expected and useability and wearability for all wearers This book is essential reading for academics and students engaged in criminology criminal justice socio legal studies science and technology studies medicine health and social care psychology engineering computer and data science philosophy social policy and social work and security studies It will also be of great interest to policy makers regulators practitioners already deploying or considering using tracking technologies and to current and potential wearers

Show Me the Money: Tracking Consumer Spending with Daily Card Transaction Data During the Pandemic Mr. Serhan Cevik, 2022-12-02 The COVID 19 pandemic has been an unprecedented shock to economic activity with abrupt and unexpected changes in household consumption behavior This paper investigates how the spread of the pandemic and government interventions have affected consumer spending using daily card transaction data in the Baltics The analysis shows significant effects on the amount and composition of debit and credit card transactions First the number of new COVID 19 infections or deaths has a strongly negative effect Second while public health measures designed to contain the spread of the pandemic has a negative effect economic support measures designed to assist businesses and households have a stimulative effect Third there is heterogeneity across spending categories but the drop is mostly concentrated in sectors that are restricted by lockdowns and the risk of infection Fourth the impact of government interventions especially in terms of stimulating consumer spending appears to be more pronounced on goods than services

The Ethics of Surveillance in Times of Emergency Kevin Macnish, Adam Henschke, 2023-10-18 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on Oxford Academic and offered as a free PDF download from OUP and selected open access locations The Ethics of Surveillance in Times of Emergency draws from the use of modern surveillance technologies during the COVID 19 pandemic to explore a set of issues and challenges facing decision makers and designers in times of emergency how do we respond to emergencies in ways that are both consistent with democratic and community principles and that are ethically justifiable Emergencies like public health pandemics not only place stress on existing infrastructure

and communities but put significant pressure on our decision making The use of surveillance technologies during public health crises is a vital frame to explore the challenge of acting in times of emergency Moreover as an exercise in reflective applied ethics this book does not just seek to apply a given theory or principle to the problem of surveillance in times of emergency but to use the challenges facing us to critically engage with reflect upon and develop those theories and principles The book s authors recognize this challenge is it possible to respond to exceptional conditions in ways that either preserve our core values or must these core values be subsumed under the need to respond to the particular emergency The book offers responses to this challenge by looking at three interrelated ways in which can manifest first the democratic challenges second the ethical challenges and third the design challenges faced in developing ethical solutions **The Ethics of Surveillance in Times of Emergency** Kevin Macnish,Adam Henschke,2024-02-16 This book draws from the use of modern surveillance technologies during the COVID 19 pandemic to explore a set of issues and challenges facing decision makers and designers in times of emergency how do we respond to emergencies in ways that are both consistent with democratic and community principles and that are ethically justifiable **Harlequin Romantic Suspense April 2021 Box Set** Karen Whiddon,Geri Krotow,Jennifer D.
