Insect Dreams The Half Life Of Gregor Samsa:

Insect Dreams Marc Estrin, 2003-02-04 The metamorphosis of Kafka's Gregor Samsa from fabric salesman to cockroach was surely one of the momentous transformations of the modern world Now in Marc Estrin's astounding debut Gregor undergoes yet another metamorphosis one that propels him across the rocky and often ridiculous landscape of the early twentieth century In these continuously surprising pages Estrin's Gregor secretly sold to a Viennese sideshow by the Samsas chambermaid comes to sharpen his mind against those of Wittgenstein Spengler and Einstein dance to the crazy rhythm of American Prohibition appear as a surprise witness at the Scopes trial become intimately involved in Alice Paul's feminist movement and with Alice Paul encounter the KKK and confer with FDR and Robert Oppenheimer and emerge from it all as the very essence of modern conscience

Cockroach Marion Copeland, 2004-04-04 The cockroach could not have scuttled along almost unchanged for two hundred and fifty million years some two hundred and forty nine before man evolved unless it was doing something right It would be fascinating as well as instructive to have access to the cockroach's own record of its life on earth to know its point of view on evolution and species domination over the millennia Such chronicles would perhaps radically alter our perceptions of the dinosaur's span and importance and that of our own development and significance We might learn that throughout all these aeons the dominant life form has been if not the cockroach itself then certainly the insect Attempts to chronicle the cockroach's intellectual and emotional life have been made only within the last century when a scientist titled his essay on the cockroach *The Intellectual and Emotional World of the Cockroach* and artists as radically different as Franz Kafka and Don Marquis created equally memorable cockroach protagonists At least since Classical Greece authors have brought cockroach characters into the foreground to speak for the weak and downtrodden the outsiders those forced to survive on the underside of dominant human cultures Cockroaches have become the subjects of songs La Cucaracha have competed in roach races and have even ended up in recipes In this accessible sympathetic and often humorous book Marion Copeland examines the natural history symbolism and cultural significance of this poorly understood and much maligned insect

Indigenous Creatures, Native Knowledges, and the Arts Wendy Woodward, Susan McHugh, 2017-10-17 This volume illuminates how creative representations remain sites of ongoing struggles to engage with animals in indigenous epistemologies Traditionally imagined in relation to spiritual realms and the occult animals have always been more than primitive symbols of human relations Whether as animist gods familiars conduits to ancestors totems talismans or co creators of multispecies cosmologies animals act as vital players in the lives of cultures From early days in colonial contact zones through contemporary expressions in art film and literature the volume's unique emphasis on Southern Africa and North America historical loci of the greatest ranges of species and linguistic diversity help to situate how indigenous knowledges of human animal relations are being adapted to modern conditions of life shared across species lines

The absurd in literature Neil Cornwell, 2013-07-19 Neil Cornwell's study while endeavouring to present an historical

survey of absurdist literature and its forbears does not aspire to being an exhaustive history of absurdism. Rather it pauses on certain historical moments, artistic movements, literary figures and selected works before moving on to discuss four key writers: Daniil Kharms, Franz Kafka, Samuel Beckett and Flann O'Brien. The absurd in literature will be of compelling interest to a considerable range of students of comparative European, including Russian and Central European and English literatures, British Isles and American, as well as those more concerned with theatre studies, the avant garde and the history of ideas including humour theory. It should also have a wide appeal to the enthusiastic general reader.

Bestiarium Judaicum Jay Geller, 2017-11-14. Given the vast inventory of verbal and visual images of nonhuman animals (pigs, dogs, vermin, rodents, apes) disseminated for millennia to debase, dehumanize and justify the persecution of Jews, *Bestiarium Judaicum* asks: What is at play when Jewish-identified writers tell animal stories? Focusing on the nonhuman animal constructions of primarily Germanophone authors including Sigmund Freud, Heinrich Heine, Franz Kafka and Gertrud Kolmar, Jay Geller expands his earlier examinations, *On Freud's Jewish Body*, *Mitigating Circumcisions* and *The Other Jewish Question*, identifying the Jew and making sense of modernity of how such writers drew upon representations of Jewish corporeality in order to work through their particular situations in Gentile modernity. From Heine's ironic lizards to Kafka's Red Peter and Siodmak's Wolf Man, *Bestiarium Judaicum* brings together Jewish cultural studies and critical animal studies to ferret out these writers' engagement with the bestial answers upon which the Jewish and animal questions converged and by which varieties of the species Jew were identified.

Literature as Cultural Ecology Hubert Zapf, 2016-04-21. Drawing on the latest debates in ecocritical theory and sustainability studies, *Literature as Cultural Ecology: Sustainable Texts* outlines a new approach to the reading of literary texts. Hubert Zapf considers the ways in which literature operates as a form of cultural ecology using language, imagination and critique to challenge and transform cultural narratives of humanity's relationship to nature. In this way, the book demonstrates the important role that literature plays in creating a more sustainable way of life. Applying this approach to works by writers such as Emily Dickinson, Edgar Allan Poe, Herman Melville, William Faulkner, Toni Morrison, Zakes Mda and Amitav Ghosh, *Literature as Cultural Ecology* is an essential contribution to the contemporary environmental humanities.

The Meanings of J. Robert Oppenheimer Lindsey Michael Banco, 2016-05-15. He called the first atomic bomb technically sweet yet as he watched its brilliant light explode over the New Mexico desert in 1945 in advance of the black horrors of Hiroshima and Nagasaki, he also thought of the line from the Hindu epic *The Bhagavad Gita*: I am become Death, the destroyer of worlds. Physicist J. Robert Oppenheimer, the scientific director of the Manhattan Project, the single most recognizable face of the atomic bomb and a man whose name has become almost synonymous with Cold War American nuclear science, was and still is a conflicted, controversial figure who has come to represent an equally ambivalent technology. *The Meanings of J. Robert Oppenheimer* examines how he has been represented over the past seven decades in biographies, histories, fiction, comics, photographs, film, television, documentaries, theater and museums. Lindsey Michael Banco gathers an

unprecedented group of cultural texts and seeks to understand the multiple meanings Oppenheimer has held in American popular culture since 1945 He traces the ways these representations of Oppenheimer have influenced public understanding of the atomic bomb technology physics the figure of the scientist the role of science in war and even what it means to pursue knowledge of the world around us Questioning and unpacking both how and why Oppenheimer is depicted as he is across time and genre this book is broad in scope profound in detail and offers unique insights into the rise of nuclear culture and how we think about the relationship between history imagination science and nuclear weapons today Kafka Kaj Bernhard Genell,2022-04-19 *Kafka a Fredo Structuralist Analysis* is an analysis of Kafka s Novels and short Stories This book concentrates on understanding what contributed to the famous Kafka effect The author explains the structural triplicity of a discourse seen as Consciousness It also describes how Freud Romantic irony and Symbolistic literature simultaneously co work as the mythical subtext of Kafka s work Kafka created something that would become part of defining Modern Man Understanding Kafka is the road to understanding Modernity *Historical Dictionary of Fantasy Literature* Allen Stroud,2023-06-12 Fantasy is both old and new In the ancient past stories of magic where supernatural creatures existed the gods walked the earth and heroes saved their civilizations from the dark fate that awaited them were intermingled with history religion and fact It is only in the last few hundred years that a conscious suspension of disbelief has allowed us to return to fantasy the literature of the impossible and appreciate it for its craft and storytelling once more *Historical Dictionary of Fantasy Literature Second Edition* contains a chronology an introduction an extensive bibliography and cross referenced entries on more than 800 authors ranging across the entire historical spectrum More than 200 other entries describe the fantasy sub genres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies This book is an excellent resource for students researchers and anyone wanting to know more about fantasy literature *The A to Z of Fantasy Literature* Brian Stableford,2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The

book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites Memorious Discourse Christian Moraru, 2005 While other types of discourse cover up gloss over or play down what they have borrowed and therefore owe the postmodern eagerly acknowledges its textual and cultural debt Moreover it turns this indebtedness into an unexpected source of creativity and originality In his wide ranging discussion of contemporary writers and theorists Moraru notes that postmodernism characteristically re presents That is it actively remembers and to use a musical term reprises former representations These need not be infinite in number as in Borges but must be and usually are retrieved with sufficient obviousness Jacket **Genre and Extravagance in the Novel** Jed Rasula, 2021-07-15 This book addresses an anomaly in the novel as genre the generic promise to readers that reading a novel is a familiar and repeatable experience is challenged by the extravagant exceptions to this rule Furthermore these exceptions such as Moby Dick Ulysses or To the Lighthouse are sui generis hybrid concoctions that cannot be said to be typical novels The novel then as literary form succeeds by extravagantly disregarding or even disavowing the protocols of its own genre Examining a number of famous examples from Don Quixote to Nostromo this book offers an anatomy of exceptions that illustrate the structural role of their exceptionality for the prestige of the novel as literary form *The Turkish Turn in Contemporary German Literature* L. Adelson, 2005-08-19 Challenging the commonplace that suspends migrants between two worlds this study turns a refreshingly curious eye to complex cultural relations and literary novelties wrought by Turkish migration to Germany At interpretive and historic crossroads involving dialogue and storytelling genocide and taboo and capital and labour in the 1990s This book illuminates far reaching imaginative effects that literatures of migration can engender In critical conversation with Arjun Appadurai Seyla Benhabib Homi Bhabha Rey Chow Andreas Huyssen Dominick LaCapra Doris Sommer and many others Adelson probes history and aesthetics as surprisingly twinned indices of national and global transformation at the millennial turn **The Annotated Nose** Marc Estrin, 2011-09-02 A most unlikely life Marc Estrin discovers that another writer's novel The Nose not only has spawned a bizarre cult among the nation's youth but is based on the extraordinary life of a real person an outcast named Alexei Pigov Estrin searches Alexei out and asks him to provide annotations to The Nose Alexei says that although the events of the novel might for the most part be real the purported reasons for them are all damnable lies On the left hand page of The Annotated Nose we read The Nose itself and take in its beautifully unsettling illustrations On the right hand page we follow Alexei's complaints always surprising and often far reaching The layers in Estrin's remarkable comic book are as multiple eclectic and outrageous as the sequence of masks Alexei wears to hide his face from the world over the caroming trajectory of his most unlikely life The Annotated Nose is at once Marc Estrin's most playful and his most ambitious work to date A signed and numbered limited edition of 75 copies is also available *Contemporary Authors* Julie Mellors, 2005-09 A biographical and

The Pakn Treger ,2003 The Lamentations of Julius Marantz Marc Estrin,2007-11-01 Who would benefit if they really did bring The Rapture on Marc Estrin follows another of his strange protagonists through a world troubled by what it knows and by how it applies that knowledge From the first page we are plunged into a global riot of paranoia joy and fear But something is sadly familiar here perhaps because we have been taught to anticipate a world in which people suddenly fly off the planet It might be The Rapture Or it might be some violation of the force of gravity Whatever it is it s spreading madness religious hysteria and some truly formidable government powers The voice of these Lamentations is a sixty something club footed scientist named Julius Marantz an obsessive researcher who suffers both from forbidden knowledge and an insistent conscience As his spirit and his heart begin to fail Julius realizes what is lost to him a childhood of possibility the consolation of belief and the undying optimism of a father who taught him the principles of physics on the roller coaster and the parachute jump Partly a portrait of cynical politics and religious fervor part scientific speculation and even a meditation on the glories of Coney Island The Lamentations of Julius Marantz traces the rise and fall of science in a truly personal story that finally fairly ascends Jewish Book World ,2006 **The Year's Best Fantasy and Horror** ,2003
