Freedom from the Mind Games Marius Mihai Lungu,2020-08-14 There are moments when human mind transcends both the limits of the senses and those of ordinary thinking entering the realm of other realities As far as mind is concerned the very dreams are solid realities such as the normal waking state But when we wake up we realize that everything has been just an illusion As an instrument in itself and through the power we unconsciously give it our mind comes to tame and manipulate us according to its own scenarios and it does so even in our sleep with dreams But the mind is no longer present during the deep sleep and when we wake up there is nothing left to remind us of those moments However even in the deep sleep there is something accompanying us making us realize that we exist even when our mind is absent Having realized my true nature I find all these methods and techniques that I myself have applied and written here in the book unnecessary But I realize that at that moment should someone ask me only this Do you know you exist Are you aware that you exist and Has there been any time when you did not exist I do not think I would have understood a single thing and the simplicity of my true nature which is also yours would have been overlooked as usual
