Vagrant Nation Risa Goluboff, 2016-01-25 In 1950s America it was remarkably easy for police to arrest almost anyone for almost any reason The criminal justice system and especially the age old law of vagrancy served not only to maintain safety and order but also to enforce conventional standards of morality and propriety A person could be arrested for sporting a beard making a speech or working too little Yet by the end of the 1960s vagrancy laws were discredited and American society was fundamentally transformed What happened In *Vagrant Nation* Risa Goluboff answers that question by showing how constitutional challenges to vagrancy laws shaped the multiple movements that made the 1960s Vagrancy laws were so broad and flexible that they made it possible for the police to arrest anyone out of place Beats and hippies Communists and Vietnam War protestors racial minorities and civil rights activists gays single women and prostitutes As hundreds of these vagrants and their lawyers challenged vagrancy laws in court the laws became a flashpoint for debates about radically different visions of order and freedom Goluboff s compelling account of those challenges rewrites the history of the civil rights peace gay rights welfare rights sexual and cultural revolutions As Goluboff links the human stories of those arrested to the great controversies of the time she makes coherent an era that often seems chaotic She also powerfully demonstrates how ordinary people with the help of lawyers and judges can change the meaning of the Constitution The Supreme Court s 1972 decision declaring vagrancy laws unconstitutional continues to shape conflicts between police power and constitutional rights including clashes over stop and frisk homelessness sexual freedom and public

Conrad C. Crane,1993 As the might and capabilities of American airpower have grown during the last 60 years so has the controversy about its use in the intentional and indiscriminate wartime bombardment of civilians In Bombs Cities and Civilians Conrad Crane maintains that for the most part American airmen in World War II remained committed to precision bombing doctrine Instead of attacking densely populated urban areas simply to erode civilian morale Army Air Forces adhered to a policy that emphasised targeting key industrial and military sites He demonstrates that while the British Germans and Japanese routinely conducted indiscriminate aerial bombardment of enemy cities American airmen consistently stayed with daylight raids against carefully selected targets especially in Europe Daytime precision missions were usually far more dangerous than night area attacks but such Army Air Forces tactics increased bombing efficiency and also reduced the risk of civilian casualties
