5. A 9-month-old with glaucoma requires surgery. The infant's parents are divorced. To obtain informed consent, which action would be most appropriate?

- A. Contacting the father for informed consent
- B. Obtaining informed consent from the mother
- C. Seeking a court ruling on the course of care
- D. Determining sole or joint custody by the parents

Answer: D

Rationale: The most appropriate action would be to determine legal custody by court decree. If the parents have joint custody, then either parent may give consent, but it is always best to have consent given by both parents. The parent with only physical custody may give consent for emergency care. The last resort is getting a court ruling; usually this is not necessary unless the parents disagree about the care of the child.

6. Which statement made by a nursing student would best indicate that her education on family-centered care was fully understood? A. "Childbirth affects the entire family, and relationships will change." B. "Families are usually not capable of making health care decisions for themselves, especially in stressful situations."

C. "Mothers are the only family member affected by childbirth."

D. "Since childbirth is a medical procedure, it may affect

everyone." Answer: A

Rationale: Childbirth affects the entire family, and relationships will change. Childbirth is viewed as a normal life event, not a medical procedure. Families are very capable of making health care decisions about their own care with proper information and support.
