essence it is a diet that causes the body to release ketones into the bloodstream Most cells prefer to use blood sugar which comes from carbohydrates as the body's main source of energy In the absence of circulating blood sugar from food we start breaking down stored fat into molecules called ketone bodies the process is called ketosis Once you reach ketosis most cells will use ketone bodies to generate energy until we start eating carbohydrates again The shift from using circulating glucose to breaking down stored fat as a source of energy usually happens over two to four days of eating fewer than 20 to 50 grams of carbohydrates per day Keep in mind that this is a highly individualized process and some people need a more restricted diet to start producing enough ketones

WHAT IS CHAFFLE The basic recipe for a chaffle contains cheddar cheese almond flour and an egg You mix the ingredients together in a bowl and pour it on top of your waffle maker Waffle makers are probably on the rise right now after this chaffle recipe exploded the other day ago I was kind of skeptical at first thinking there was no way this would turn out after mixing it all together and pouring the batter on top of the waffle I was expecting one big gigantic mess Make sure to spray the waffle maker really well The waffle turned out great and it was crispy on the outside and soft in the middle
