Low Maintenance Cars In Uae:

UAE and the Gulf George Katodrytis, Kevin Mitchell, 2015-03-30 At the end of the 20th century Dubai attracted international media attention as the world sought to make sense of the city's extraordinary growth. Exuberant projects such as the Burj Arab, the Burj Khalifa and the Palm Islands attracted investment in dreams to transform the region. While the global financial crisis kept dreams from becoming reality, this issue of AD seeks to present a view of architecture and urbanism in the United Arab Emirates (UAE) and other states in the wider Gulf Cooperation Council (GCC) at a time when greater economic stability promises new beginnings. The issue presents examples of architecture that transcends preoccupation with fabricating images and traces the process of making contemporary Gulf cities from material tectonics to large scale masterplans. By presenting the architecture of UAE and the Gulf within the context of broader regional developments and global trends, it highlights how projects in the UAE, Qatar, Kuwait and Saudi Arabia have contributed to unprecedented urban growth while emphasising the continuing environmental challenges of building in the region. In addition to highlighting various sustainable initiatives intended to counteract these challenges, the issue also explores how computational design and new technologies are being innovatively employed to mitigate the impact of arid climates. Contributors include Ameena Ahmadi, Kelly Hutzell, Varkki Pallathucheril, Todd Reisz, Rami el Samahy, Terri Meyer Boake, Jeffrey Willis. International architects: Foster Partners, Frank Gehry, HOK, IM Pei, Legoretta, Legoretta, Jean Nouelle, Reiser, Umemoto, Allies and Morrison. Regional architects: AGi, Kuwait, DXB, lab, UAE X Architects. *UAE Family Business Cases* Khaula Alkaabi, Veland Ramadani, 2023-12-05 This book provides insights into family businesses in the United Arab Emirates (UAE) using a unique collection of case studies that help gain a comprehensive understanding of UAE family firms' profiles and the ways they respond to everyday challenges and future disruptions. Cases treat different issues from the perspective of family businesses such as succession, innovation, decision making, strategic orientation, corporate governance, spatial distribution, SDG alignment, etc. Each case contains learning objectives, discussion questions, and suggested readings in order to help readers understand the topic discussed in the respective cases. This book also showcases the five business ecosystem stakeholders that have supported family businesses in the UAE: such as the UAE Government, free zone authorities, university, and research institutions, support agencies, and venture capital companies. Professionals as well as MBA students and researchers involved in the study of family businesses will particularly benefit from this book.
