

A person wearing a blue shirt is climbing a large, colorful, abstract sculpture. The sculpture is composed of many overlapping, translucent, and semi-transparent layers in shades of orange, yellow, and blue, creating a complex, tunnel-like structure. The person is positioned in the center of the frame, reaching up towards the top of the sculpture. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the textures and colors of the sculpture.

Nuggets of Truth: A Bible Student's Devotional and A Bible Teacher's Resource Handbook Dr. John Mannion, 2020-11-17 Inspirational writing meets Bible commentary Nuggets of Truth stands as a different kind of devotional It is perhaps more in keeping with Oswald Chamber's My Utmost for His Highest in that it is meant to teach more than it is meant to simply inspire Not that each Nugget of Truth does not inspire On the contrary it stands as a very inspirational book even as the Scriptures themselves never fail to inspire Indeed the content of each individual devotional is full of Scripture Each Nugget of Truth is designed to provide the reader with a short Bible study Hence the reader is more of a student than simply a reader The considerable content of each day's study digs deep enough with a pointed focus that the student effectively goes through a mini Bible college program once having gone through the entire year The sub title of Nuggets of Truth A Bible Student's Devotional and A Bible Teacher's Resource Handbook reveals the two fold purpose and use of this book It is meant to be a devotional for Bible students and for Bible teachers In keeping with this second purpose the devotional is exhaustively indexed With its indexes Nuggets of Truth can be used by Bible teachers as a resource for their teaching ministries 80 pages of downloadable indices provided with purchase

Proceedings of the 1st-12th Annual Educational Conference. 1921-1932, 1921 **Whose Tradition? Which Dao?** James F. Peterman, 2014-12-03 Considers the notable similarities between the thought of Confucius and Wittgenstein In an incisive work of comparative philosophy James F Peterman considers the similarities between early Chinese ethicist Confucius and mid twentieth century philosopher Ludwig Wittgenstein Their enduring legacies rest in no small part on projects to restore humanity to healthy ways of living and thinking Confucius offers a method of answering ethical questions designed to get his interlocutors further along on the Dao the path of right living Struggling with his own forms of unhealthy philosophical confusion Wittgenstein provides a method of philosophical therapy designed to help one come into agreement with norms embedded in our forms of life and speech Highlighting similarities between the two philosophers Peterman shows how Wittgensteinian critique can benefit

from Confucian inquiry and how Confucian practice can benefit from Wittgensteinian investigations Furthermore in presenting a way to understand Confucius s Dao as concrete language games and forms of life and Wittgenstein s therapeutic interventions as the most fitting philosophical orientation toward early Confucian ethics Peterman offers Western thinkers a new sophisticated understanding of Confucius as a philosopher *Department of the Army Pamphlet* ,1986 **The Psychopathology of Political Ideologies** Robert Samuels,2021-09-28 Inspired by Freud s The Psychopathology of Everyday Life this book examines the unconscious processes shaping contemporary political ideologies Addressing ten fundamental questions Robert Samuels identifies four basic political ideologies liberal conservative Left and Right which are often placed in the structure of a logical square determined by two binary oppositions with a fifth structure of centrism complicating the square He turns to psychoanalysis to explain the unconscious defense mechanisms that structure these political ideologies Each chapter uses a recent influential title as a gateway to the analysis of the ideologies and structures identified Through this analysis Samuels argues that belief in ideological structures is tied to triumvirates of institutions and ideals conservatives being tied to premodern institutions of religion feudalism and monarchy while modern liberals are tied to ideals of universality objectivity and empiricism He concludes that this investment in universality shapes the ethics of modern globalization and democratic liberalism Unlike other books conclusions are reinforced through examples drawn from current events with an integrated model of different psychopathologies The Psychopathology of Political Ideologies moves beyond providing an understanding of what drives different political investments to offer a more rational and conscious comprehension of subjectivity and social organization This book will be a great resource for those interested in politics political science psychology social psychology globalization and ideology Moral Disagreement Rach Cosker-Rowland,2020-11-25 Widespread moral disagreement raises ethical epistemological political and metaethical questions Is the best explanation of our widespread moral disagreements that there are no objective moral facts and that moral relativism is correct Or should we think that just as there is widespread disagreement about whether we have free will but there is still an objective fact about whether we have it similarly moral disagreement has no bearing on whether morality is objective More practically is it arrogant to stick to our guns in the face of moral disagreement Must we suspend belief about the morality of controversial actions such as eating meat and having an abortion And does moral disagreement affect the laws that we should have For instance does disagreement about the justice of heavily redistributive taxation affect whether such taxation is legitimate In this thorough and clearly written introduction to moral disagreement and its philosophical and practical implications Rach Cosker Rowland examines and assesses the following topics and questions How does moral disagreement affect what we should do and believe in our day to day lives Epistemic peerhood and moral disagreements with our epistemic peers Metaethics and moral disagreement Relativism moral objectivity moral realism and non cognitivism Moral disagreement and normative ethics Liberalism democracy and disagreement Moral compromise Moral

Current Problems in the Protection of Human Rights Katja S Ziegler,Peter M Huber,2013-03-01 While the legal systems of the United Kingdom and

Germany differ in essential respects the current process of constitutionalisation is well recognised on both sides of the Channel Constitutionalisation manifests itself in the evolution of a constitution and the influence of existing constitutional principles on the ordinary law Human rights law provides one of the best examples of this process and the aim of this book is to provide a comparative UK German perspective on recent developments First it addresses human rights questions which arise in both jurisdictions in a similar way such as the tension between liberty and security absolute rights such as human dignity and the prohibition of torture and the question how conflicts between human rights are to be resolved and conceptualised A second theme considers the impact of human rights on different areas of law in particular administrative law criminal law labour law and private law generally Finally a third theme focuses on the intersection of national supra and international human rights law in particular after the entry into force of the EU Charter on Fundamental Rights The book thus reveals convergent and divergent answers to similar problems examines differences in the impact of human rights on the legal systems under consideration and traces parallel and distinct debates over and sensitivities about human rights as well as sensitivities that arise in multi layer situations in the UK and Germany
