Specifications Grading Linda B. Nilson, 2023-07-03 In her latest book Linda Nilson puts forward an innovative but practical and tested approach to grading that can demonstrably raise academic standards motivate students tie their achievement of learning outcomes to their course grades save faculty time and stress and provide the reliable gauge of student learning that the public and employers are looking for She argues that the grading system most commonly in use now is unwieldy imprecise and unnecessarily complex involving too many rating levels for too many individual assignments and tests and based on a hairsplitting point structure that obscures the underlying criteria and encourages students to challenge their grades This new specifications grading paradigm restructures assessments to streamline the grading process and greatly reduce grading time empower students to choose the level of attainment they want to achieve reduce antagonism between the evaluator and the evaluated and increase student receptivity to meaningful feedback thus facilitating the learning process all while upholding rigor In addition specs grading increases students motivation to do well by making expectations clear lowering their stress and giving them agency in determining their course goals Among the unique characteristics of the schema all of which simplify faculty decision making are the elimination of partial credit the reliance on a one level grading rubric and the bundling of assignments and tests around learning outcomes Successfully completing more challenging bundles or modules earns a student a higher course grade Specs grading works equally well in small and large class settings and encourages authentic assessment Used consistently over time it can restore credibility to grades by demonstrating and making transparent to all stakeholders the learning outcomes that students achieve This book features many examples of courses that faculty have adapted to spec grading and lays out the surprisingly simple transition process It is intended for all members of higher education who teach

whatever the discipline and regardless of rank as well as those who oversee train and advise those who teach Specification grading promotes the following values and outcomes It 1 Upholds High Academic Standards2 Reflects Student Attainment of Skills and Knowledge 3 Motivates Students to Learn and to Excel4 Fosters Higher Order Cognitive Development and Creativity5 Discourages Cheating6 Reduces Student Stress7 Makes Students Feel Responsible for Their Grades8 Minimizes Conflict Between Faculty and Students9 Saves Faculty Time and Is Simple to Administer10 Makes Expectations Clear and Simplifies Feedback for Improvement11 Assesses Authentically12 Achieves High Inter Rater Agreement **My Life in**

Communication in Accounting Education Richard M.S. Wilson,F. Elizabeth Gray,Lynn Hamilton,2016-04-14 Accounting often described as the language of business requires a diverse set of written listening and oral communication skills if those who practise it are to be effective Given the pace of change relating to for example the evolution of international accounting standards and the demands for greater transparency accountants must be clear responsive and audience focussed communicators Employers of accountants consistently comment on the need for their new graduate recruits and trainees to have strong written oral and interpersonal communication skills In this light accounting educators face the challenge of designing and delivering programmes that reflect professional expectations on the part of employers and clients and educating students on how to make informed communication choices in order to achieve desired results and to build good working relationships The chapters in this book deal with such topics as accounting students perceptions of oral communication skills competence based writing skills and the development of listening skills This book was originally published as Accounting Education an international journal **MEASUREMENT, EVALUATION AND ASSESSMENT IN**

EDUCATION RADHA MOHAN,2016-06-10 Assessment and evaluation are central to the educational system of a country as they impact the national policy of education besides helping in framing future strategies for growth of the nation The process of measurement evaluation and assessment is interlinked with curriculum and teaching learning methods enabling learning outcomes to be determined Good quality assessment is instrumental in determining a student s future goal and career path besides impacting all stakeholders of the school system An effective school system cannot be built where the students are examined on the basis of mere paper and pencil tests Today schools have access to the use of a range of techniques for student s assessment teacher performance school s effectiveness and the evaluation of the school system as a whole The aim of the book is to provide an in depth knowledge and understanding of measurement evaluation and statistics in education both from theoretical and practical aspects It also offers a concise step by step guide that helps in making assessment simple and economical in terms of money and time besides being a boon for any institution The book contains effective strategies to

facilitate enhanced learning by explaining the interpretation of test scores It has several Illustrative examples drawn from the author s experience Portfolios are proving to be a great way of assessment and how to incorporate them in the teaching learning process is dealt with in detail Instructions for constructing rubrics for evaluation of different domains of learning i e cognitive psychomotor and affective have also been included in the book Item analysis basic statistics and different types of tests are discussed elaborately
