Swindoll, 2011-02-14 It's never too late Whether you're a new Christian or you've walked the road for decades it's never too late to find the critical truths that make life make sense We often start out believing that common sense will be enough that we're prepared for the road ahead with our good values and quick thinking It doesn't take long to learn otherwise A broken friendship An obsessive career Financial distress Even empty success We come back to God searching for insight for hope And He provides Nothing can replace studying the Bible Best selling author and pastor Charles Swindoll has spent decades studying its pages and teaching its precepts But if sixty six books seem overwhelming *The Owner's Manual for Christians* is the perfect starting place a biblical summary of the major truths that anchor the Christian life From grace to freedom these chapters walk the reader through the keys to a life well lived drawn from the Creator of life itself Life is often confusing but it does not have to be impossible Read *The Owner's Manual for Christians* and find hope for the road ahead Official Manual of the State of Missouri Missouri. associated with hard power yet it is engaged in public diplomacy as it represents the U S abroad and facilitates the diffusion of ideas Military Soft Power examines one such aspect of U S public diplomacy how the United States extends its influence or soft power worldwide through military educational exchange programs hosted by the United States elite military schools its war and staff colleges The presence of international officers at U S military schools is substantial yet very little is known about the long term impacts of these exchanges This study shows how the exchanges build personal and professional networks that then serve as important conduits of ideas between the United States and other countries These networks help to improve interoperability between the U S military and its partner nations and to extend U S influence through military soft power rather than through hard power This is an alternative bottom up view of how military organizations can influence political processes and decisions through the development of cross border communities of military professionals This involves a two step model of socialization First individuals military officers are socialized by a large political institution the U S through its war and staff colleges Second these individuals function as idea entrepreneurs bringing new ideas beliefs and practices home with them There is a need for policies and programs that help countries successfully transition from authoritarian governance to democratic rule as well as countries undergoing democratic revolutions and those seeking more gradual change Exchange programs are one pathway in which an important group of citizens military officers and their families can experience the everyday functioning of democratic practices and institutions This unique survey provides timely insights into the important political impacts of military exchange programs and how military institutions and their personnel influence international politics beyond simply being used as an instrument of coercion **A Selected List of Books on**
