Maximo 75 Upgrade Guide:

An Introductory Guide to EC Competition Law and Practice Valentine Korah, 1994 *Manual de Urbanismo* (Bogota, 1939) Karl Brunner, 2015-09-25 Unlike European countries where the consolidation of town planning was based on legislative reforms Latin America's urbanismo mainly stemmed from urban plans for national capitals and metropolises. Austrian academic and planner Karl Brunner was hired in Chile, Colombia and Panama from the late 1920s to advise in the professional and academic domains marking a shift from the so-called *cole Fran aise d Urbanisme* EFU of Haussmannesque descent towards the Austrian German *St dtebau*. While coordinating the municipal office and plan for Bogot Brunner translated his *Manual de Urbanismo* the first textbook published in Latin America about the new discipline and the first to incorporate examples from local cities. Based on his 1924 course at Vienna's National Faculty of Architecture Brunner's *Manual* emphasized the scientific system of the discipline. Brunner was the most influential figure of his time in the urban planning of the region but has become overshadowed by Le Corbusier's and CIAM's prevailing influence after the Second World War. Complete with a supporting introduction written by Arturo Almandoz this volume includes the full copy of the original *Manual de Urbanismo* with an English translation of the synthesis. Further materials including an extract of Karl Brunner's *Problemas actuales de urbanizaci n* and an accompanying English translation of the text can be accessed at www.routledge.com/9781138778573
