C. Teitler, 2017-02-13

Flavius Claudius Julianus was the last pagan to sit on the Roman imperial throne 361 363 Born in Constantinople in 331 or 332 Julian was raised as a Christian but apostatized and during his short reign tried to revive paganism which after the conversion to Christianity of his uncle Constantine the Great early in the fourth century began losing ground at an accelerating pace Having become an orphan when he was still very young Julian was taken care of by his cousin Constantius II one of Constantine s sons who permitted him to study rhetoric and philosophy and even made him co emperor in 355 But the relations between Julian and Constantius were strained from the beginning and it was only Constantius sudden death in 361 which prevented an impending civil war As sole emperor Julian restored the worship of the traditional gods He opened pagan temples again reintroduced animal sacrifices and propagated paganism through both the spoken and the written word In his treatise Against the Galilaeans he sharply criticised the religion of the followers of Jesus whom he disparagingly called Galilaeans He put his words into action and issued laws which were displeasing to Christians the most notorious being his School Edict This provoked the anger of the Christians who reacted fiercely and accused Julian of being a persecutor like his predecessors Nero Decius and Diocletian Violent conflicts between pagans and Christians made themselves felt all over the empire It is disputed whether or not Julian himself was behind such outbursts Accusations against the Apostate continued to be uttered even after the emperor s early death In this book the feasibility of such charges is examined **Fair Share** Stephen Bell, Michael Keating, 2018-02-26
