,1951 **Law, Values and Practice in Mental Health Nursing: a Handbook** Toby Williamson, Rowena Daw, 2013-05-16
Mental health nurses need to work within the law to ensure good legal care for their patients while at the same time being guided by appropriate values. This practical handbook for mental health nurses offers an accessible and invaluable guide to mental health law and values based practice. Written in an accessible and friendly way, the book covers the different stages of mental healthcare delivery in a range of healthcare settings. The book includes guidance on The Human Rights Act, The Mental Capacity Act 2005, The Deprivation of Liberty safeguards, The revised Mental Health Act, Admitting people to hospital, Discharging people into the community, Working with those in care homes, Working with children and young people. The chapters include case studies based on real life to show how nurses can deal with complex and daunting scenarios in practice. The book includes clear explanations of all relevant legislation as well as step by step guidance on how to deal with situations where mental health law applies. This book is suitable for those preparing to qualify as well as those already qualified and working in a range of healthcare settings. An essential text, this book will empower nurses to practise with confidence. I welcome this book as its integration of values based practice and legislation into the complex world of decision making in mental health services clarifies many issues. This book is sure to become essential reading for students of mental health nursing. Ian Hulatt, Mental Health Advisor, Royal College of Nursing, UK. This is an invaluable guide for all professionals working in mental health services, written by two people who have unparalleled understanding of mental health and mental capacity law. It should help practitioners understand both the intricacies of the law and how to retain a person centred approach when applying it. Paul Farmer, Chief Executive, Mind. An impressive and enlightening book that spans law, ethics, values and practice. With the help of realistic scenarios, it explains and applies the law with clarity and great practical understanding. It will inform and reassure those struggling with the often painful dilemmas confronted over the course of providing nursing care to service users with mental disabilities. Geneva Richardson, Professor of Law, King's College London, UK. **Psychiatric Mental Health Nursing** Patricia O'Brien, 2008-08-15. Psychiatric Nursing provides a focused thorough introduction to psychiatric mental health nursing, including nursing assessment and intervention of the most common mental disorders as classified in the DSM IV. This text guides nurses in managing special populations, clarifying neurobiological theories and conducting psychiatric nursing evaluations. Additionally, Psychiatric Nursing presents the latest on psychotropic drugs, addresses legal and ethical concerns within psychiatric nursing, and discusses complementary and alternative therapies. Perfect for undergraduate courses, the text features Learning Objectives, Key Terms, Critical Thinking Questions, Case Studies, Clinical Examples, Care Plans, Diagnostic Criteria, Patient and Family Education, Internet Resources, Implications for Evidence Based Practice, Client Teaching Guides. Routledge Handbook of Global Mental Health Nursing Edilma Yearwood, Vicki Hines-Martin, 2016-09-19. Awarded second place in the 2017 AJN Book of the Year Awards in Psychiatric and Mental Health Nursing. I welcome at long last a book on global mental health targeted to nurses, the front line health worker

for billions of people around the world The roles that nurses can and should play in mental health care are diverse and this book addresses both well trod as well as emerging concerns across the continuum of care from promotion to prevention to treatment Importantly at the heart of this diversity is the foundation of compassion and care the hallmark of the nursing profession Vikram Patel Professor of International Mental Health and Wellcome Trust Principal Research Fellow in Clinical Science Centre for Global Mental Health London School of Hygiene and Tropical Medicine UK Psychiatric disorders have consistently been identified as serious and significant global burdens of disease yet meeting the needs of people in mental distress has not often been a priority in health care This important reference work sets out the knowledge base for understanding the state of mental health care globally and translating that into effective practice The Handbook provides a historical and contemporary context of mental health care identifies and discusses evidence based standards of care and strategies for mental health promotion and explores the need to deliver care from interdisciplinary and community based models placing these imperatives within a human rights and empowerment framework It is made up of four core sections which look at Key and emerging issues that affect global mental health practice and research including the social context of health Evidence based health promotion strategies for major areas of practice internationally A range of country studies reflecting different problems and approaches to mental health and mental health care internationally and What constitutes empowering practice The only comprehensive work looking at global perspectives on mental health nursing this is an invaluable reference for all students academics and professionals involved in mental health research with an interest in global or cross cultural issues
