5. When using repeat-stage repeat guides, press repeat line through line(s) through back hole of cylinder head.

Pressing of material through rollers can be performed on a cylinder type driving machine or a hydraulic press. An important requirement is that the layer thickness is measured accurately in relation to level of cylinder head. The quality of the cylinder type driving machine or of the hydraulic press does not affect the press.

8. Check valve guides. The valve guides are made of a hardening steel. The valve guides are hardened by a process called nitriding. The valve guides are hardened by a process called nitriding. The valve guides are hardened by a process called nitriding.
