**Gendered Transformative Initiatives in South Asia** Reema Bhatia, 2025-03-18. This volume discusses gendered transformative initiatives in South Asian feminism, discussing gender norms, labour, and market participation by women, along with family planning, reproductive rights, and initiatives for the social and financial empowerment of women in South Asia. Gender is a part of our everyday lived reality. It has been one of the key structuring principles of social interaction across societies. The context may be specific to a society, but it is also universal since it intertwines with everyone's lives. This book uses a bricoleur approach to understanding gender as a lived experience. These explorations examine the ways in which gendered identity is negotiated and lived. The volume uses a multi-methodological and multidisciplinary approach to discuss issues around conflict, work, queer identities, intersectionality, and single women across Pakistan, Sri Lanka, and Bangladesh. Part of the *Social Movements and Transformative Dissent* series, this volume will be of interest to students and researchers of gender studies, women's studies, sociology, economics, development studies, political science, cultural studies, and South Asian studies.

**Young people, education, and sustainable development** Peter Blaze Corcoran, Philip M. Osano, 2023-09-04. Young people have an enormous stake in the present and future state of Earth. Almost half of the human population is under the age of 25. If young people's resources of energy, time, and knowledge are misdirected towards violence, terrorism, socially isolating technologies, and unsustainable consumption, civilization risks destabilization. Yet there is a powerful opportunity for society if young people can participate positively in all aspects of sustainable development. In order to do so, young people need education, political support, resources, skills, and hope. This volume offers a global perspective on education initiatives by and for young people that promote a transition to sustainability. It includes 38 essays co-authored by 68 contributors from 25 nations representing a diversity of geography, gender, and generation. The development of youth leadership has been a central concern of my professional work. Young people have a lot to offer to sustainable development and should participate in planning for our
