Knowledge Production and Contradictory Functions in African Higher Education Cloete, Nico, Maassen, Peter, 2015-03-01 Reviews This volume brings together excellent scholarship and innovative policy discussion to demonstrate the essential role of higher education in the development of Africa and of the world at large Based on deep knowledge of the university system in several African countries this book will reshape the debate on development in the global information economy for years to come It should be mandatory reading for academics policy makers and concerned citizens in Africa and elsewhere Manuel Castells Professor Emeritus University of California at Berkeley Laureate of the Holberg Prize 2012 and of the Balzan Prize 2013 The dominant global discourse in higher education now focuses on world class universities inevitably located predominantly in North America Europe and increasingly East Asia The rest of the world including Africa is left to play catch up But that discourse should focus rather on the tensions even contradictions between excellence and engagement with which all universities must grapple Here the African experience has much to offer the high participation and generously resourced systems of the so called developed world This book offers a critical review of that experience and so makes a major contribution to our understanding of higher education Sir Peter Scott former editor of Times Higher Education and Professor of Higher Education Studies University College London Institute of Education

Climate Change and Food Security Sukanta Mondal, Pankaj Singh, Ram Lakhan Singh, 2024-11-21 The effects of climate change on food production and security are many

and varied and represent one of the biggest challenges facing humanity today As the human population increases there is increasing pressure on land availability and water resources In many staple crops warming temperatures have caused decreases in overall yields but at the same time the demand for cheaper and more sustainable food has increased This edited volume examines the effects of climate change on all aspects of food production and how this is affecting food security in many parts of the world The book presents a series of chapters which describe new technologies aimed at mitigating these effects via for example genetic modification microbial science and the introduction of new crops Reshaping Food Systems to improve Nutrition and Health in the Eastern Mediterranean Region Ayoub Al-Jawaldeh,Alexa Meyer,2023-01-09 This detailed and comprehensive study examines nutrition and health in the World Health Organization WHO Eastern Mediterranean Region presenting the six game changing food systems actions proposed by the WHO and the progress of their implementation in the region The WHO Eastern Mediterranean Region is a particularly complex place to study an area of economic contrasts with changing dietary patterns and stark differences between high levels of malnutrition and a prevalence of overweight and obesity As a result actions to improve the nutritional situation of the population are urgently sought The strategies explored in this book offer a unique opportunity to change food systems all over the world addressing aspects including sustainable food production the impact of marketing and labelling on behaviour and the effect of global events such as climate change war and the COVID 19 pandemic Reshaping Food Systems is an essential read at a time when malnutrition in all its forms including undernourishment micronutrient deficiencies and overweight and obesity pose a serious threat to global health and is of particular interest for policymakers working in nutrition and public health
