Administrator Sean O Keefe's Press Conference      **Organization at the Limit** William Starbuck, Moshe Farjoun, 2009-02-09

The book offers important insight relevant to Corporate Government and Global organizations management in general. The internationally recognised authors tackle vital issues in decision making how organizational risk is managed how can technological and organizational complexities interact what are the impediments for effective learning and how large medium and small organizations can and in fact must increase their resilience. Managers organizational consultants expert professionals and training specialists particularly those in high risk organizations may find the issues covered in the book relevant to their daily work and a potential catalyst for thought and action. A timely analysis of the Columbia disaster and the organizational lessons that can be learned from it. Includes contributions from those involved in the Investigation Board report into the incident. Tackles vital issues such as the role of time pressures and goal conflict in decision making and the impediments for effective learning. Examines how organizational risk is managed and how technological and organizational complexities interact. Assesses how large medium and small organizations can and in fact must increase their resilience. Questions our eagerness to embrace new technologies yet reluctance to accept the risks of innovation. Offers a step by step understanding of the complex factors that led to disaster.

**Disasters and Tragic Events** Mitchell Newton-Matza, 2014-03-26 From the Salem Witch Trials of 1692 to the Sandy Hook school massacre of 2012 this two volume encyclopedia surveys tragic events natural and man made famous and forgotten that helped shape American history. Tragedies and disasters have always been part of the fabric of American history. Some gave rise to reactions that profoundly influenced the nation. Others dominated public consciousness for a moment then disappeared from collective memory. Organized chronologically **Disasters and Tragic Events** examines these moments covering both the familiar and the obscure and probing their immediate and long term effects. Unlike other works that concentrate on a particular type of disaster for example weather or medicine related tragedies this two volume encyclopedia has no such limits. Its entries range from natural disasters such as hurricanes and tornadoes to civic disturbances environmental disasters epidemics and medical errors transportation accidents and more. The work is a perfect supplement for history classes and will also prove of great interest to the general reader.

**The Burning Blue** Kevin Cook, 2021-06-08 Winner of the American Astronautical Society's 2021 Eugene M Emme Award. The untold story of a national trauma NASA's Challenger explosion and what really happened to America's Teacher in Space illuminating the tragic cost of humanity setting its sight on the stars. You've seen the pictures. You know what happened. Or do you? On January 28 1986 NASA's space shuttle Challenger exploded after blasting off from Cape Canaveral. Christa McAuliffe America's Teacher in Space was instantly killed along with the other six members of the mission. At least that's what most of us remember. Kevin Cook tells us what really happened on that ill fated unforgettable day. He traces the pressures leading from NASA to the White House that triggered the fatal order to launch on an ice cold Florida morning. Cook takes readers inside the shuttle for the agonizing minutes after the explosion which the astronauts did indeed

survive He uncovers the errors and corner cutting that led an overconfident space agency to launch a crew that had no chance to escape But this is more than a corrective to a now dimming memory Centering on McAuliffe a charmingly down to earth civilian on the cusp of history The Burning Blue animates a colorful cast of characters a pair of red hot flyers at the shuttle s controls the second female and first Jewish astronaut the second Black astronaut and the first Asian American and Buddhist in space Drawing vivid portraits of Christa and the astronauts Cook makes readers forget the fate they re hurtling toward With drama immediacy and shocking surprises he reveals the human price the Challenger crew and America paid for politics capital P Progress and the national dream of reaching for the stars

Critical Issues in the History of Spaceflight Stephen J. Dick, Steven J. Dick, Roger D. Launius, 2006 In March 2005 the NASA History Division and the Division of Space History at the National Air and Space Museum brought together a distinguished group of scholars to consider the state of the discipline of space history This volume is a collection of essays based on those deliberations The meeting took place at a time of extraordinary transformation for NASA stemming from the new Vision of Space Exploration announced by President George W Bush in January 2004 to go to the Moon Mars and beyond This Vision in turn stemmed from a deep reevaluation of NASA s goals in the wake of the Space Shuttle Columbia accident and the recommendations of the Columbia Accident Investigation Board The new goals were seen as initiating a New Age of Exploration and were placed in the context of the importance of exploration and discovery to the American experience
