US of AA Joe Miller, 2019-04-02 In the aftermath of Prohibition America's top scientists joined forces with AA members and put their clout behind a campaign to convince the nation that alcoholism is a disease They had no proof but they hoped to find it once research money came pouring in The campaign spanned decades and from it grew a multimillion dollar treatment industry and a new government agency devoted to alcoholism But scientists research showed that problem drinking is not a singular disease but a complex phenomenon requiring an array of strategies There's less scientific evidence for the effectiveness of AA than there is for most other treatments including self-enforced moderation therapy and counseling and targeted medications AA's own surveys show that it doesn't work for the overwhelming majority of problem drinkers Five years in the making Joe Miller's brilliant in-depth investigative reporting into the history politics and science of alcoholism shows exactly how AA became our nation's de facto treatment policy even as evidence accumulated for more effective remedies and how as a result those who suffer the most often go untreated

US of AA is a character-driven beautifully written exposé full of secrecy irony liquor industry money the shrillest of scare tactics and at its center a grand deception In the tradition of *Crazy* by Pete Earley and David Goldhill's *Catastrophic Care* **US of AA** shines a much needed spotlight on the addiction treatment industry It will forever change the way we think about the entire enterprise
