Facility Management for Physical Activity and Sport Thomas H. Sawyer, 2009 In an era of unprecedented expansion sport has become even more significant and pervasive in our society Through this growth a new breed of specialist has emerged the public assembly facility manager Facility Management for Physical Activity Sport provides managers with a fundamental understanding of the concepts and issues facing today's professional

Facility Management for Physical Activity and Sport Thomas Sawyer, 2019 In an era of unprecedented expansion sport has become even more significant and pervasive in American society As sport has continued to grow so have the facilities that support sporting events As the number of facilities has grown so has the number of people who manage the various sport facilities on college and university campuses as well as large public assembly facilities found in every large metropolitan area worldwide This growing global industry places unique demands on its personnel and increasingly requires specialized education The job requirements in the sport industry involve many skills applicable to the sport setting and specific to the increasingly complex and multifaceted areas it represents This text provides the student and practitioner with enough information on a variety of subjects to know where to proceed without assistance and when it would be wise to seek additional professional assistance Since the early 1970s a new breed of specialists has emerged the public assembly facility manager Public assembly facility managers receive similar training as sport managers These two professionals generally complete degrees in sport management with minors in business administration Sport management has been considered a legitimate field of study for the past 20 years in higher education Sport management is an umbrella term that includes such areas as fitness physical activity recreation and sport A major concern for sport management its students and practitioners is the continued need for a variety of textbooks and related resources in this expanding field of study Some texts are generalized and others more focused Facility Management for Physical Activity and Sport is a comprehensive compilation of concepts and practical subject matter published for the sport management student and future facility manager as well as practitioners Publisher's website

[Sport Facility & Event Management](#) Thomas J. Aicher, Brianna L. Newland, Amanda L. Paule-Koba, 2019-03-08 Sport Facility and Event Management provides readers with a working knowledge of how to manage sport facilities and how to plan manage implement and evaluate sport events The text integrates timely theoretical insights with real world practicality and application affording readers a strong foundation in facility and event management The authors focus on a broad range of facilities and events from community recreation facilities to large venues reflecting the diversity of the industry

Sport Facility Operations Management Stacey A. Hall, Simon Shibli, Eric Schwarz, 2010-05-14 This is the first book to take a truly global look at facilities operations management in the sport industry Sports facilities management is in the national news with reports from the BBC that three 2012 Olympic venues in London are being evaluated by accountants to see whether they will deliver value for money The current estimate of government spending on the games is 9.3 billion

There is also an ongoing debate about the fate of the 80 000 seat stadium that is being constructed for the games at a cost of 500million Sport facilities of all shapes and sizes are an ingrained part of global sport management culture As such it is inevitable that students who enter into the field of sport management will interact with the management and operations of a sport facility at some point during their career This textbook provides the theoretical foundation for sport facility operations management and is supplemented both in the text and in the companion site containing schematics planning documents sample forms and sample ownership management structures In addition each author will infuse research and experiences from sport facilities around the world North America Europe Middle East Asia Australia and New Zealand to ensure that a global perspective is at the core of this book This book is published with the sport management lecturer and student in mind
