Directions: Fill in the Roman Republic leadership positions below.

<p><b>Consul</b></p> <p>The Consul was the most important leadership role in the Roman Republic. Consul was a one-year position. To keep one person from having too much power, Romans elected two Consuls together. The Consuls had to work together to make decisions for the Roman Republic. Consuls could take Rome to war, collect taxes, and make laws.</p>	<p><b>Senator</b></p> <p>Under the Consuls were the senators. A senator was a lifetime position. The Senate was an important group of men who helped the Consuls make decisions for Rome.</p>
<p><b>Tribunes</b></p> <p>The Plebeian Council could make laws and hold court hearings. Leaders elected to the Plebeian Council were called Tribunes. Tribunes had the power to reject rules or decrees made by the Senate.</p>	<p><b>Aediles</b></p> <p>Leaders in charge of taking care of all the public buildings in Rome were called Aediles. Aediles would often hold public festivals that were very popular with the people. As Aediles became more popular in Rome, they often moved up in the Roman government, becoming senators or even consuls.</p>
<p><b>Censors</b></p> <p>Censors were responsible for counting Roman citizens in a process called the census. Censors also helped with managing how much money the Roman republic had.</p>	<p><b>Governors</b></p> <p>Governors were leaders who ruled parts of the Roman Empire that were far away from the city of Rome. Roman Senators chose these governors. Governors collected taxes and also led the local army.</p>

End of the Roman Republic 146 to 44 BC Catherine Steel, 2013-03-05 In 146 BC the armies of Rome destroyed Carthage and emerged as the decisive victors of the Third Punic War The Carthaginian population was sold and its territory became the Roman province of Africa In the same year and on the other side of the Mediterranean Roman troops sacked Corinth the final blow in the defeat of the Achaean conspiracy thereafter Greece was effectively administered by Rome Rome was now supreme in Italy the Balkans Greece Macedonia Sicily and North Africa and its power and influence were advancing in all directions However not all was well The unchecked seizure of huge tracts of land in Italy and its farming by vast numbers of newly imported slaves allowed an elite of usually absentee landlords to amass enormous and conspicuous fortunes Insecurity and resentment fed the gulf between rich and poor in Rome and erupted in a series of violent upheavals in the politics and institutions of the Republic These were exacerbated by slave revolts and invasions from the east

*Commanders and Command in the Roman Republic and Early Empire* Fred K. Drogula, 2015-04-13 In this work Fred Drogula studies the development of Roman

provincial command using the terms and concepts of the Romans themselves as reference points Beginning in the earliest years of the republic Drogula argues provincial command was not a uniform concept fixed in positive law but rather a dynamic set of ideas shaped by traditional practice Therefore as the Roman state grew concepts of authority control over territory and military power underwent continual transformation This adaptability was a tremendous resource for the Romans since it enabled them to respond to new military challenges in effective ways But it was also a source of conflict over the roles and definitions of power The rise of popular politics in the late republic enabled men like Pompey and Caesar to use their considerable influence to manipulate the flexible traditions of military command for their own advantage Later Augustus used nominal provincial commands to appease the senate even as he concentrated military and governing power under his own control by claiming supreme rule In doing so he laid the groundwork for the early empire s rules of command

*Cassius Dio and the Late Roman Republic* ,2019-08-26 Cassius Dio s Roman History is an essential yet still undervalued source for modern historians of the late Roman Republic The papers in this volume show how his account can be used to gain new perspectives on such topics as the memory of the conspirator Catiline debates over leadership in Rome and the nature of alliance formation in civil war Contributors also establish Dio as fully in command of his narrative shaping it to suit his own interests as a senator a political theorist and above all a historian Sophisticated use of chronology manipulation of annalistic form and engagement with Thucydides are just some of the ways Dio engages with the rich tradition of Greco Roman historiography to advance his own interpretations **Data Book of Social Studies Materials and Resources** ,1989

Goldberg,2005-11-07 Becoming Roman Literature examines the problem of Rome s literary development by shifting attention from Rome s writers to its readers The literature we traditionally call early is seen to be a product less of the mid Republic when poetic texts began to circulate than of the late Republic when they were systematically collected canonized and put to new social and artistic uses Imposing on texts the name and function of literature was thus often a retrospective activity This book explores the development of this literary sensibility from the Romans early interest in epic and drama through the invention of satire and the eventual enshrining of books in the public collections that became so important to Horace and Ovid
