Failing To Report A Crime:

An Introduction to Criminal Law Philip Carlan, Lisa S. Nored, Ragan A. Downey, 2010-01-15 **The Economics of Crime** Zagros Madjd-Sadjadi, 2013-11-01 Too often students in economics emerge with a clear grasp of theory but precious little ability to apply that theory especially in the area of microeconomics They are left with a model that they believe is relevant solely to market mechanisms when it is in fact suited for inquiry into all avenues of rational choice At the same time there is a uniform belief that criminals are plagued by psychological physiological or sociological deficiencies that can be remedied only through incarceration or institutionalization Neither formulation is satisfactory as an exemplar to the general population about how they should be thinking about crime Workers employers and managers alike have a stake in effective public policy designed to reduce criminality According to the Institute for People with Criminal Records approximately 3% of the US population will be in jail or prison for at least one day during any given year and nearly 30% of the population has a criminal record Yet having a criminal record often serves as a bar to employment and leads individuals who have paid their debts to society on a pathway to recidivism Thus everyone from managers in companies considering whether to bar felons from employment to individual voters considering felony disenfranchisement laws needs to understand how rational criminals act and think This book will attempt to guide readers to such an understanding By understanding how incentive mechanisms affect criminal behavior business managers may use this information either to reduce criminal activity in their own enterprises or to understand how unethical business decisions affect the wider society As we always do in such circumstances we must make sacrifices to balance the competing interests **Victims in the Criminal Justice System**

Kushner,2018-12-12 This book offers distinct insights into the sources of state legitimacy in Africa by incorporating an analysis of non state actors role in service delivery The author examines how citizens reliance on non governmental security actors such as street committees neighborhood watches and community police forums shape their attitudes toward the state and their political participation Broadly this project contributes to our understanding of citizens everyday experiences of crime and violence at the local level and why they matter politically **Corruption in Commercial Enterprise** Liz Campbell,Nicholas Lord,2018-04-17 This edited collection analyses from multiple disciplinary perspectives the issue of corruption in commercial enterprise across different sectors and jurisdictions Corruption is commonly recognised as a major social bad and is seriously harmful to society in terms of the functioning and legitimacy of political economic systems and the day to day lives of individuals There is nothing novel about bribes in brown envelopes and dubious backroom deals ostensibly to grease the wheels of business

Corrupt practices like these go to the very heart of illicit transacting in both legal markets such as kickbacks to facilitate contracts in international commerce and illegal markets such as payoffs to public officials to turn a blind eye to cross border smuggling. Aside from the apparent pervasiveness and longevity of corruption in commercial enterprise there is now renewed policy and operational attention on the phenomenon prompting and meriting deeper analysis. Corruption in commercial enterprise encompassing behaviours often associated with corporate and white collar crime and corruption in criminal commercial enterprise where we see corruption central to organised crime activities are major public policy issues. This collection gives us insight into their nature, organisation and governance and how to respond most appropriately and effectively.
