

The background of the entire cover is a photograph of a beach. In the foreground, there are several large, weathered pieces of driftwood scattered across the sand. The sand is a light tan color. In the background, the ocean is visible with gentle waves, and the sky is filled with soft, grey clouds. The overall mood is contemplative and serene.

## **Faithful Doubt The Wisdom Of Uncertainty:**

Faithful Doubt , **The Goldilocks God** Guy Collins, 2022-08-22 The Goldilocks God Searching for the via media explores the fertile middle ground between toxic Christianity and militant atheism Can Christianity be intellectually credible Why do our past failures and breakages offer comfort and hope How does the via media of Anglicanism offer tactics for dealing with contemporary challenges and uncertainties Whether exploring mystic Hildegard von Bingen strategic thinker Queen Elizabeth or theologians Jean Luc Marion and Sarah Coakley readers venture into a Trinitarian Goldilocks zone of faith hope and love Guy Collins makes a creative and heartfelt case for a spiritual thermodynamics of trial and error promise and glory Illuminating ancient Christian practice with cutting edge philosophy and theology he reveals the lifelong habits that are just right for encountering the mystery of God **Suspended God** Maeve Louise Heaney, 2022-03-24 Heaney traces the hidden history of music s presence in Christian thought including its often unrecognized influence on key figures such as von Balthasar Barth and Bonhoeffer She uses Lonergan s theological framework to explore musical composition as a theological act showing why when and how music is a useful symbolic form The book introduces eleven ground breaking theologians and each chapter offers an entry point into the thought of the theologian being presented through an original piece of music which can be found on the companion website <https://bloomsbury.pub/suspendedgod> Heaney argues that music is a universally important means of making sense of life with which theology needs to engage as a means of expression and of development Musical composition is presented as an appropriate and even necessary form of doing theology in its quest to engage with the past mediate truth to the present and tradition it into the future **Old Canaan in a New World** Elizabeth Fenton, 2020-04-21 Were indigenous Americans descendants of the lost tribes of Israel From the moment Europeans realized Columbus had landed in a place unknown to them in 1492 they began speculating about how the Americas and their inhabitants fit into the Bible For many the most compelling explanation was the Hebraic Indian theory which proposed that indigenous Americans were the descendants of the ten lost tribes of Israel For its proponents the theory neatly explained why this giant land and its inhabitants were not mentioned in the Biblical record In Old Canaan in a New World Elizabeth Fenton shows that though the Hebraic Indian theory may seem far fetched today it had a great deal of currency and significant influence over a very long period of American history Indeed at different times the idea that indigenous Americans were descended from the lost tribes of Israel was taken up to support political and religious positions on diverse issues including Christian millennialism national expansion trade policies Jewish rights sovereignty in the Americas and scientific exploration Through analysis of a wide collection of writings from religious texts to novels Fenton sheds light on a rarely explored but important part of religious discourse in early America As the Hebraic Indian theory evolved over the course of two centuries it revealed how religious belief and national interest intersected in early American history Agnosticism Francis Fallon, Gavin Hyman, 2020-11-04 In a time marked by prominent public clashes between theists and atheists much less

attention has been given to the question of agnosticism whether in public debate or in academic literature This is all the more surprising given that so many in Western society feel unable to identify unequivocally with either theism or atheism This book brings together some leading contemporary philosophers from both the analytic and continental traditions to give a sustained and in depth treatment of the question of agnosticism Approaching the question from a variety of stances and employing different methodologies the contributors explore the various possible meanings of agnosticism today Several of them develop what they describe as a New Agnosticism where the relationship with theism or forms of religious belief is not as mutually exclusive as has often been assumed Others look for signs of agnosticism in places where it is not usually thought to be found such as in forms of continental philosophy and even in theology itself They also raise interesting methodological questions at the intersection of analytic and continental philosophy These are stimulating and innovative essays working with the most recent developments in philosophy and religious thought They open up new avenues of thought that will be of interest to philosophers theologians and other thoughtful readers whether theist atheist or agnostic

Faith as Life in the Spirit Aaron Gabriel Ross, 2025-06-26 This incisive work shows that faith does not need to be understood as what one believes does or feels when faith is understood as being in Christ by being in the Spirit The way in which Christians and Christian theology at least in Western traditions including the family of Pentecostals and renewal movements engages with the idea of faith has a problem faith is often defined as what people must do whether that is to believe in a list of doctrines to do good works or to love properly in order for God to respond with forgiveness and salvation However this work takes a new approach with a pneumatological trajectory in constructing a theology of faith understood as life in the Spirit overcoming a stalemated discussion on faith as belief versus works As such faith is being in Christ by being in the Spirit is the theological recognition that faith is first relationality to the Spirit by which a person is invited into life with Christ and the triune God Faith is not what one does beliefs works affections but rather what one is in relationality with the Spirit Beliefs works and affections are best understood as those things that are the outward expressions of the relationality rather than that which brings one into relationality with God

**Naturally Late** Will Johncock, 2019-04-15 Is time a natural reality that social symbols such as clocks and calendars merely contingently represent Lateness protocols seemingly exhibit such contingency for not all cultures regulate synchronization identically Just as social cultural time structures are interpreted to diverge from time's natural rhythm body modifications are often presented as social productions that divert human bodies from their naturally originated corporeal temporality A similar separation informs climate change discourses supposing a natural rhythm that industrialized culture has invaded the effects of which humans might be too late to arrest Interrogating this conceptual separation matters given that if certain times are considered to be more natural than others a situated politics emerges regarding the associated cultural structures Furthermore our personal investments in experiences of lateness which are embedded within social time seemingly contradict the constructionist impression that social time is merely a contingent
