## **Fake Nano User Manual:**

*Micro/Nano Manufacturing* André Zimmermann, Stefan Dimov, 2019-09-03 Micro manufacturing involves dealing with the fabrication of structures in the size range of 0.1 to 1000 nm. The scope of nano manufacturing extends the size range of manufactured features to even smaller length scales below 100 nm. A strict borderline between micro and nano manufacturing can hardly be drawn such that both domains are treated as complementary and mutually beneficial within a closely interconnected scientific community. Both micro and nano manufacturing can be considered as important enablers for high end products. This Special Issue of Applied Sciences is dedicated to recent advances in research and development within the field of micro and nano manufacturing. The included papers report recent findings and advances in manufacturing technologies for producing products with micro and nano scale features and structures as well as applications underpinned by the advances in these technologies.

**Social Media Influencers in Strategic Communication** Nils S. Borchers, 2021-12-21 This book seeks to draw a comprehensive picture of influencer collaborations from a strategic communication perspective. The contributors tackle strategic influencer communication from multidisciplinary perspectives from varying actor foci and from different methodological frameworks and methods. Influencers cross traditional boundaries in many ways and oscillate between intimacy and publicity, authenticity and commercialization, ingratiation and critical distance. From a strategic communication perspective, this variability makes influencers hard to capture. Organizations can cooperate with influencers to achieve both marketing and PR objectives. Influencers can act as cooperation partners integrating commercial content into organic narratives or as independent critics. Influencers also combine different roles that have traditionally been occupied by separate actors such as intermediary, content distributor, creative content producer, community manager, testimonial, strategic counsellor, and event host. The combination of these roles in just one actor opens new opportunities for strategic communication and can produce appreciated synergy effects. It is therefore hardly surprising that influencer collaborations have become a firmly established instrument in the toolbox of strategic communicators. The chapters in this book were originally published in the *International Journal of Advertising* and the *International Journal of Strategic Communication*.

**Advanced X-ray Imaging of Electrochemical Energy Materials and Devices** Jiajun Wang, 2021-10-02 This book comprehensively outlines synchrotron based X-ray imaging technologies and their associated applications in gaining fundamental insights into the physical and chemical properties as well as reaction mechanisms of energy materials. In this book, the major X-ray imaging technologies utilised depending on research goals and sample specifications are discussed. With X-ray imaging techniques, the morphology, phase, lattice, and strain information of energy materials in both 2D and 3D can be obtained in an intuitive way. In addition,

due to the high penetration of X rays operando in situ experiments can be designed to track the qualitative and quantitative changes of the samples during operation This book will broaden the reader's view on X ray imaging techniques and inspire new ideas and possibilities in energy materials research **Mac Life**, 2007 MacLife is the ultimate magazine about all things Apple It's authoritative ahead of the curve and endlessly entertaining MacLife provides unique content that helps readers use their Macs iPhones iPods and their related hardware and software in every facet of their personal and professional lives
