**Journalists and Confidential Sources** Joseph M. Fernandez, 2020-11-23 **Journalists and Confidential Sources** explores

the fraught and widespread reliance by journalists on anonymous sources whistleblowers and others to whom they owe an obligation of confidentiality It examines the difficulties afflicting such relationships analyses the deteriorating right to know and freedom of expression frameworks and explores solutions and reforms The book discusses key Australian and international source protection ethics rules statutes court cases law enforcement actions and case studies It highlights weakness in journalists professional practice codes governing confidentiality obligations discusses inadequate journalistic appreciation of the importance of establishing clear terms and conditions underpinning confidentiality obligations and identifies shortcomings in the law governing source protection The book argues that despite source protection being widely recognised as an important ideal source protection is under sustained assault thereby undermining public access to information and democracy itself The work focusses on Australia but takes into account source protection in the United Kingdom the United States Canada and New Zealand This timely contribution to the global discussion on the subject will greatly interest journalists scholars educators and students especially in the areas of media law and policy journalism media and communication studies and public relations the legal fraternity and anyone who communicates with journalists

*Political Landscapes of Donald Trump* Barney Warf, 2020-10-29 This book delves into the life and work of President Donald Trump who is arguably the most famous and controversial person in the world today While his administration has received enormous attention few have studied the spatial dimensions of his policies *Political Landscapes of Donald Trump* explores the geographies of Trump from multiple conceptual standpoints It contextualizes Donald and his rise to power within the geography of his victory in 2016 Several essays in the book are concerned with his white ethno nationalist political platform and social bases of support Others focus on Trump's use of Twitter his ties to professional wrestling and his innumerable lies and deceits Yet another set delves into the geopolitics of his foreign policies notably in Cuba Korea the Middle East and China Finally it covers how his administration has addressed or failed to address climate change and its treatment of undocumented immigrants This book will be of interest to anyone interested in the Trump administration as well as social scientists and the informed lay public *The Nation*, 1898 [Trumping the Media](#) Michael Mario

Albrecht, 2022-08-11 The ascendancy of Donald J Trump to the office of president was not a fluke Changes in the media environment and changes in the political landscape converged and provided fertile ground for a demagogic populist to exploit existing structures for his personal and political gains A right wing ecosystem had developed that included cable television talk radio social media and imageboards The political rise of Trump occurred alongside a mainstreaming of far right politics and a skepticism towards long established institutions Trump was able to exploit the shifts in politics and the media environment for his political gain He deployed a post truth strategy that challenged established media and political institutions and their claims to be arbiters of truth and protectors of democracy This book explores the shifts in the media environment that made the political career of Donald Trump possible The author shows the ways that Trump was able to

inhabit the new media and political landscape and take advantage of journalistic norms and practices that were susceptible to exploitation by a demagogue with no allegiance to the truth and no reverence towards the foundations of liberal democracy Understanding the ways in which Trump was able to emerge as a powerful political force is essential to those invested in challenging the momentum of the alt right and forwarding the project of democracy

**Swamp Wars** Jeffrey Lord, 2019-05-28 Donald Trump's insurgent candidacy and subsequent presidency are larger than the man He has ridden a wave of populist anger conservatism and fervor for reform that is aimed directly at The Swamp the entrenched powers that be in Washington and elsewhere the Old Order of an elite government media academia triad Swamp rulers and warriors alike have set the tone for American politics virtually unchallenged for a generation now however they are caught surprised and flat footed by the populist revolt that threatens their stranglehold on our nation's policy and politics Predictably the Old Order has spent the Trump presidency attempting to delegitimize the New Populism defining legitimate popular dissent as an outgrowth of racism sexism and other forms of bigotry while executing vicious personal assaults on the character of anyone who speaks for the movement whether it's Donald Trump members of his administration his few admirers in the media or even average Trump supporting Americans who have had the audacity to speak out These explosive Swamp Wars erupting almost daily in breaking news headlines represent a pitched battle for the heart soul and future of America

**The Constitution of Knowledge** Jonathan Rauch, 2021-06-22 Arming Americans to defend the truth from today's war on facts In what could be the timeliest book of the year Rauch aims to arm his readers to engage with reason in an age of illiberalism Newsweek A New York Times Book Review Editors Choice Disinformation Trolling Conspiracies Social media pile ons Campus intolerance On the surface these recent additions to our daily vocabulary appear to have little in common But together they are driving an epistemic crisis a multi front challenge to America's ability to distinguish fact from fiction and elevate truth above falsehood In 2016 Russian trolls and bots nearly drowned the truth in a flood of fake news and conspiracy theories and Donald Trump and his troll armies continued to do the same Social media companies struggled to keep up with a flood of falsehoods and too often didn't even seem to try Experts and some public officials began wondering if society was losing its grip on truth itself Meanwhile another new phenomenon appeared cancel culture At the push of a button those armed with a cellphone could gang up by the thousands on anyone who ran afoul of their sanctimony In this pathbreaking book Jonathan Rauch reaches back to the parallel eighteenth century developments of liberal democracy and science to explain what he calls the Constitution of Knowledge our social system for turning disagreement into truth By explicating the Constitution of Knowledge and probing the war on reality Rauch arms defenders of truth with a clearer understanding of what they must protect why they must do and how they can do it His book is a sweeping and readable description of how every American can help defend objective truth and free inquiry from threats as far away as Russia and as close as the cellphone

**The Tweets of President Donald J. Trump** Forefront Books, 2020-07-28 Love them or hate them

the tweets of President Donald J Trump rule the Twitterverse Until our last presidential campaign television particularly campaign ads dominated the political landscape But with the rise of Donald J Trump came a new political tool the internet Trump used this to communicate instantly and very effectively with the American people And it worked Establishing his political positions by tweeting numerous times a day Trump pulled a major upset by defeating Hillary Rodham Clinton to become the 45th president of the United States Once in office Trump did not abandon his penchant for using Twitter as his populist platform Instead he doubled down on it making it his primary means of communicating with the American people Knowing how effective a tweet can be Trump once wrote Boom I press it and within two seconds we have breaking news With a massive Twitter following of 78 million by the spring of 2020 Trump s direct impact upon Americans cannot be dismissed nor can the value of his tweets as an essential part of the historical record be denied To put the enormous impact of his tweets into perspective Trump won the White House with 63 million votes a number significantly lower than his massive Twitter following Now you can read the collected tweets from President Donald J Trump from his inauguration through February 2020 in this historically significant collection

**Misinformation Matters** Uyiosa Omoregie, Kirsti Ryall, 2023-04-19 What is misinformation Why does it matter How does it spread on the internet especially on social media platforms What can we do to counteract the worst of its effects Can we counteract its effects now that it is ubiquitous These are the questions we answer in this book We are living in an information age specifically an algorithmic age which prioritizes information quantity over quality Social media has brought billions of people from across the world together online and the impact of diverse platforms such as Facebook WeChat Reddit LinkedIn Signal WhatsApp Gab Instagram Telegram and Snapchat has been transformational The internet was created with the best of intentions as an online space where written content could be created consumed and diffused without any real intermediary This empowering aspect of the web is still mostly a force for good People on the whole are better informed and online discussion is more inclusive because barriers to participation are reduced As activity online has grown however an expanding catalogue of research reveals a darker side to social media and the internet generally Namely misinformation s ability to negatively influence our behaviour both online and offline The solution we provide to this growing dilemma is informed by Ludwig Wittgenstein s Tractatus Logico Philosophicus which examines the relationship between language and reality from a philosophical perspective and complements Claude Shannon s Information Quantity Theory which addresses the quantification storage and communication of digital information from a mathematical perspective The book ends by setting out a model designed by us a Wittgensteinian approach to information quality It defines content published online by clarifying the propositions and claims made within it Our model s online information quality check allows users to effectively analyse the quality of trending online content This approach to misinformation analysis and prevention has been designed to be both easy to use and pragmatic It upholds freedom of speech online while using the harm principle to categorise problematic content

**Environment, Social Justice, and the Media**

**in the Age of the Anthropocene** Elizabeth G. Dobbins, Luigi Manca, Maria Lucia Piga, 2020-02-17 Environment Social Justice and the Media in the Age of Anthropocene addresses three imminent challenges to human society in the age of the Anthropocene The first challenge involves the survival of the species the second the breakdown of social justice and the third the inability of the media to provide global audiences with an adequate orientation about these issues The notion of the Anthropocene as a geological age shaped by human intervention implies a new understanding of the human context that influences the physical and biological sciences Human existence continues to be affected by the physical and biological reality from which it evolved but in turn it affects that reality as well This work addresses this paradox by bringing together the contributions of researchers from very different disciplines in conversation about the complex relationships between the physical biological world and the human world to offer different perspectives and solutions in establishing social and environmental justice in the age of the Anthropocene      *Debates of the Senate* Canada.
