s commitment to innovation has led it to reject the careful zero defects approach of other car manufacturers even as it struggles to mass produce cars reliably and with minimal defects While most car manufacturers struggle with the razor thin margins of mid priced sedans Tesla s strategy requires that the Model 3 finally bring it to profitability even as the high priced Roadster and Model S both lost money And Tesla s approach of continually focusing on the future even as commitments and deadlines are repeatedly missed may ultimately test the patience of all but its most devoted fans In Ludicrous journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day to day realities of the company and the cars it produces Blending original reporting and never before published insider accounts with savvy industry analysis Niedermeyer tells the story of Tesla as it s never been told before with clear eyes objectivity and insight

The Birth of Head Start Maris A. Vinovskis, 2008-11-15 One of the most popular and enduring legacies of President Lyndon B Johnson s Great Society programs Project Head Start continues to support young children of low income families close to one million annually by providing a range of developmental and educational services Yet as Head Start reaches its fortieth anniversary debates over the function and scope of this federal program persist Although the program s importance is unquestioned across party lines the direction of its future whether toward a greater focus on school readiness and literacy or the continuation of a holistic approach remains a point of contention Policymakers proposing to reform Head Start often invoke its origins to justify their

position but until now no comprehensive political history of the program has existed Maris A Vinovskis here provides an in depth look at the nation s largest and best known yet politically challenged early education program The Birth of Head Start sets the record straight on the program s intended aims documenting key decisions made during its formative years While previous accounts of Head Start have neglected the contributions of important participants such as federal education officials and members of Congress Vinovskis s history is the first to consider the relationship between politics and policymaking and how this interaction has shaped the program This thorough and incisive book will be essential for policymakers and legislators interested in prekindergarten education and will inform future discussions on early intervention services for disadvantaged children

Starting Up in Business Networks Lise Aaboen,Antonella La Rocca,Frida Lind,Andrea Perna,Tommy Shih,2016-11-17 This book offers a novel perspective on starting up new business ventures through examining the process by which they become part of the existing business environment The book highlights the importance of inter organizational business relationships Asserting that new ventures need to interact and connect with customers and suppliers alongside policy actors and universities Starting up in Business Networks demonstrates how beginning a new venture demands initiating and developing business relationships Noting a lack of prior research into the process by which start ups embed into an existing business network this book presents examples from countries such as Sweden Italy the Netherlands and China to analyse the emergence and evolution of start up business networks

Innovation Never Stops Peter Merrill,2015-06-01 The world of innovation is exciting Welcome to the future and be aware of the big lesson of this book which is now its main title innovation never stops Innovation is going through the growing up phases that quality went through 20 years ago although not surprisingly it is growing up much faster Quality left behind the myth that quality was the job of the quality department and became quality management Innovation is leaving behind the myth that innovation is solely the job of R D and is now discussed in terms of innovation management This second edition includes New material on the forces of change as the prime driver of innovation Discussion of the relationship of innovation and quality Explanation of the need for innovation management and a management system approach to innovation Additional material on creativity and idea creation or ideation New material on management of risk as it is tied to the metrics of innovation
