**Energy Savings Strategies for Transit Agencies** Frank Gallivan, 2013 TRB's Transit Cooperative Research Program TCRP Synthesis 106 Energy Savings Strategies for Transit Agencies describes energy reduction strategies being used in the United States and Canada that address vehicle technologies vehicle operations maintenance and service design non revenue vehicles stations and stops building indirect energy use and renewable power generation Publication page **Overcoming Barriers to Electric-Vehicle Deployment** National Research Council, Transportation Research Board, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Committee on Overcoming Barriers to Electric-Vehicle Deployment, 2013-06-18 The electric vehicle offers many promises increasing U S energy security by reducing petroleum dependence contributing to climate change initiatives by decreasing greenhouse gas GHG emissions stimulating long term economic growth through the development of new technologies and industries and improving public health by improving local air quality There are however substantial technical social and economic barriers to widespread adoption of electric vehicles including vehicle cost small driving range long charging times and the need for a charging infrastructure In addition people are unfamiliar with electric vehicles are uncertain about their costs and benefits and have diverse needs that current electric vehicles might not meet Although a person might derive some personal benefits from ownership the costs of achieving the social benefits such as reduced GHG emissions are borne largely by the people who purchase the vehicles Given the recognized barriers to electric vehicle adoption Congress asked the Department of Energy DOE to commission a study by the National Academies to address market barriers that are slowing the purchase of electric vehicles and hindering the deployment of supporting infrastructure As a result of the request the National Research Council NRC a part of the National Academies appointed the Committee on Overcoming Barriers to Electric Vehicle Deployment This committee documented their findings in two reports a short interim report focused on near term options and a final comprehensive report Overcoming Barriers to Electric Vehicle Deployment fulfills the request for the short interim report that addresses specifically the following issues infrastructure needs for electric vehicles barriers to deploying the infrastructure and possible roles of the federal government in overcoming the barriers This report also includes an initial discussion of the pros and cons of the possible roles This interim report does not address the committee's full statement of task and does not offer any recommendations because the committee is still in its early stages of data gathering The committee will continue to gather and review information and conduct analyses through late spring 2014 and will issue its final report in late summer 2014 Overcoming Barriers to Electric Vehicle Deployment focuses on the light duty vehicle sector in the United States and restricts its discussion of electric vehicles to plug in electric vehicles PEVs which include battery electric vehicles BEVs and plug in hybrid electric vehicles PHEVs The common feature of these vehicles is that their batteries are charged by being plugged into the electric grid BEVs differ from PHEVs because they operate solely on electricity stored

in a battery that is there is no other power source PHEVs have internal combustion engines that can supplement the electric power train Although this report considers PEVs generally the committee recognizes that there are fundamental differences between PHEVs and BEVs

**Frameworks for Market Strategy** Noel Capon, Frank Go, 2016-12-08 Frameworks for Market Strategy helps students understand how to develop and implement a market strategy and how to manage the marketing process Marketing activity is the source of insight on the market customers and competitors and lies at the core of leading and managing a business To understand how marketing fits into the broader challenge of managing a business Capon and Go address marketing management both at the business and functional levels The book moves beyond merely presenting established procedures processes and practices and includes new material based on cutting edge research to ensure students develop strong critical thinking and problem solving skills for success In this European edition Capon and Go have retained the strong framework of the book but have updated the cases examples and discussions to increase the book's relevance for students outside the USA Key features include A strong strategic focus teaching students how to analyze markets customers and competitors to plan execute and evaluate a winning market strategy Practical examples from a range of contexts allowing students to develop the skills necessary to work in for profit public or non profit firms Emphasis on understanding the importance of working across organizational boundaries to align firm capabilities Full chapters devoted to key topics including brand management digital marketing marketing metrics and ethical as well as social responsibilities Focus on globalization with a chapter on regional and international marketing Multiple choice discussion and essay questions at the end of each chapter Offering an online instructor's manual and a host of useful pedagogy including videos learning outcomes opening cases key ideas exercises discussion questions a glossary and more this book will provide a solid foundation in marketing management both for those who will work in marketing departments and those who will become senior executives
