

Intelligent design and easy-to-use features allow you to concentrate more on the patient and less on the system.

Excellent image quality, accurate information and detailed analysis reporting take workflow, productivity and patient care to the next level.

Smart Depth

By adding Smart Depth in 2D and color mode, the Vivid S6 automatically changes the frequency, focus position and transmit pattern as the user changes depth. This ensures the highest resolution at shallow depths and optimal penetration at greater depths. Vital for scanning children, it helps newer staff see better results and expert operators save time — increasing standardization among users.

Advanced features come standard

Your image quality remains protected with our raw-data storage. EchoPAC™ allows instant access to ultrasound raw data provided by the Vivid S6 for comprehensive review, analysis and post-processing capabilities. Through enhanced connectivity and media support, data is shared more smoothly within networks. The "Flex" key, next to the trackball on the keyboard, can be assigned to assume the function of more distant keys, for minimal effort, increased speed, and ease of use. The large 17" high contrast wide-angle display adjusts automatically to the ambient light, preserving optimal image quality presentation under varying conditions. An Uninterruptible Power Supply and multiple probe options add to the Vivid S6's usability.
