Slay, 1968 *A Selectional Theory of Adjunct Control* Idan Landau, 2021-10-19 A novel systematic theory of adjunct control explaining how and why adjuncts shift between obligatory and nonobligatory control Control in adjuncts involves a complex interaction of syntax semantics and pragmatics which so far has resisted systematic analysis In this book Idan Landau offers the first comprehensive account of adjunct control Extending the framework developed in his earlier book *A Two Tiered Theory of Control* Landau analyzes ten different types of adjuncts and shows that they fall into two categories those displaying strict obligatory control OC and those alternating between OC and nonobligatory control NOC He explains how and why adjuncts shift between OC and NOC unifying their syntactic semantic and pragmatic properties Landau shows that the split between the two types of adjuncts reflects a fundamental distinction in the semantic type of the adjunct property OC or proposition NOC a distinction independently detectable by the adjunct's tolerance to a lexical subject After presenting a fully compositional account of controlled adjuncts Landau tests and confirms the specific configurational predictions for each type of adjunct He describes the interplay between OC and NOC in terms of general principles of competition both within the grammar and outside of it in the pragmatics and in the processing module shedding new light on classical puzzles in the acquisition of adjunct control by children Along the way he addresses a range of empirical phenomena including implicit arguments event control logophoricity and topicality Memory for Linguistic Materials Sandra Elaine Graham, 1972 Second Language Acquisition Tania Ionin, Silvina Montrul, 2023-01-26 Based on classic and cutting edge research this textbook shows how grammatical phenomena can best be taught to second language and bilingual learners Bringing together second language research linguistics pedagogical grammar and language teaching it demonstrates how linguistic theory and second language acquisition findings optimize classroom intervention research The book assumes a generative approach but covers intervention studies from a variety of theoretical perspectives Each chapter describes relevant linguistic structures discusses core challenges summarizes research findings and concludes with classroom and lab based intervention studies The authors provide tools to help to design linguistically informed intervention studies including discussion questions application questions case studies and sample interventions Online resources feature lecture slides and intervention materials with data analysis exercises ensuring the content is clear and ready to use Requiring no more than a basic course in linguistics the material serves advanced undergraduates and first year graduate

students studying applied linguistics education or language teaching Explorations into Chinese as a Second Language
 Istvan Kecskes, 2017-06-23 This volume explores how linguistic research can support the teaching and learning of Chinese as
 a second language It responds to a rapidly growing interest in the Chinese language all over the world and answers the need
 for a strong research background for the discipline Without that Chinese language learning remains only a unique experience
 and or a useful education challenge The first section explores crucial issues about the structure and use of Chinese as a
 Second Language such as word order noun noun compounds meaning making in writing pronunciation and stress and tone
 The second section explores the learning of Chinese by seeking answer to questions about difficulties expectations beliefs use
 of corpus and learning how to express necessity The authors coming from eight different countries demonstrate how existing
 knowledge has been generated bring together different lines of research point out tendencies in the field demonstrate and
 explain what tools and methods researchers can use to address major issues in the field and give direction to what future
