Parliament. House of Commons. Environment, Food and Rural Affairs Committee,2004 It is estimated that worldwide about 700 large commercial vessels have to be scrapped each year as they reach the end of their working life Much of the material they are made from can be recycled but many ships also contain hazardous materials such as asbestos PCBs and waste oils which need to be disposed of safely The Committee s report considers how defunct ships are dismantled and why most are currently dismantled in developing countries mostly in Asia health and safety protection for workers and environmental protection standards the international regulatory framework including legislation such as the Basel Convention and EC regulations IMO guidelines and enforcement problems the principles of responsible ship recycling the Government s approach to ship recycling and a UK ship recycling industry Findings include that the Government has an important role to play in ensuring this issue receives sufficient international priority particularly during the UK s forthcoming EU Presidency and chairmanship of the G8 as well at home in helping persuade UK based shipowners to arrange for their vessels to be disposed of responsibly As a first step it should ensure that all naval and other publicly owned vessels are dismantled to the highest health safety and environmental standards **Billboard** ,1972-10-14 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
