The Four Leading Doctrines of the New Church, Signified by the New Jerusalem in the Revelation Being Those Respecting the Lord; the Sacred Scripture; Faith; and Life by Emanuel Swedenborg Emanuel Swedenborg, 1846 *Religion Versus Science* Ron Frost, 2010-11-16 As commonly presented the great battle between science and religion over evolution is intractable This book maintains that the approaches both sides take in the debate drive most of the fury in the debate Although the facts of evolution are beyond doubt the big mistake that many scientists make is to present these facts using a materialistic premise that is not scientifically defensible The resulting model for evolution implies that humans arose on this planet merely by chance that the value of our lives is based only upon the genes that we carry within us and that our lives are essentially meaningless Naturally religious people recoil in horror at such a bleak view of human existence In this book Dr Frost argues that all the World's Religions advocate for the existence of a transcendent consciousness Scientific studies can in no way prove or disprove the existence of this consciousness
