*Developing Core Literacy Proficiencies, Grade 11* Odell Education, 2016-09-06 The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS). Reading Closely for Textual Details, Making Evidence-Based Claims, Making Evidence-Based Claims about Literary Technique, Grades 9-12, Researching to Deepen Understanding, Building Evidence-Based Arguments. The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from making inferences to reflecting critically. Students focus on this set of twenty skills throughout the year, and the program continually applies them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as preparing and completing tasks that are essential to students' success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system centered around the literacy skills and academic habits allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.

**Globalisation, Ideology and Politics of Education Reforms** Joseph Zajda, 2015-10-09 This 14th volume in the 24-volume book series sets out to explore the interrelationship between ideology, the state, and education reforms, placing it in a global context. It examines some of the major education reforms and policy issues in a global culture, particularly in the light of recent shifts in accountability, quality, and standards-driven education and policy research. By doing so, it provides a comprehensive picture of the intersecting and diverse discourses of globalisation and policy-driven reforms in education. The book draws upon recent studies in the areas of globalisation, equality, and the role of the state. It explores conceptual frameworks and methodological approaches applicable in the research covering the state, globalisation, and education reforms. It critiques the neo-liberal ideological imperatives of current education and policy reforms and illustrates the way that shifts in the relationship between the state and education policy affect current trends in education reforms and schooling globally. Individual chapters critically assess the dominant discourses and debates on education and policy reforms.

Using diverse comparative education paradigms from critical theory to historical comparative research the chapters focus on globalisation ideology and democracy and examine both the reasons and outcomes of education reforms and policy change They provide an informed critique of models of accountability quality and standards driven education reforms that are informed by Western dominant ideologies and social values The book also draws upon recent studies in the areas of equity cultural capital and dominant ideologies in education
