Introduction

Creating the Constitution

What compromises emerged from the Constitutional Convention?

Introduction

When the American quest for independence ended, Americans began to argue heatedly about the future of the United States. One Virginian Patrick Henry called James Madison "the father of the Constitution." While working in Congress during the war, Madison had tried and failed to get the states to work with him to create a new government. He now decided that stronger would improve more than the weak one could.

After declaring independence in 1776, Congress did not create the national or national government. Madison, many members were nervous about creating a strong central government and feared that it would violate the very rights they were fighting to preserve.

These solutions were called all government known as the Articles of Confederation. "The Articles created" "a loose design of government" in which "each state retains its sovereignty, freedom, and independence." The "League of Friendship" was a loose union in which the U.S. states agreed to defend themselves. It was not by Congress, in which each state had one vote.
