

Example #1

"Did you know that there are currently over 2.3 million Americans incarcerated for their crimes? While it is widely believed that prison should be the punishment for crime, statistics find that 77 percent of prisoners will re-offend once they are released. This suggests that prison is not working to reduce recidivism. My research paper aims to demonstrate that prison does not work as a way to prevent crime and that alternatives should be considered, such as restorative justice and other community sentencing."

Example #2

"According to the study by Nanci (12b), the horrific epidemic called obesity affects more than 1/3 of the US kids. It is a simple 7-letter word in English. At the same time, it is one of the most complicated and severe issues in the United States. The essay offers several possible solutions after analyzing the causes and effects of childhood obesity."

Example #3

"An interesting fact: the death penalty was once banned for 4 years. This type of capital punishment was not considered effective, legal, moral, or ethical back in 1972-1976. It is a controversial topic in the US. People who support such measures believe it is the best justice as the death penalty is the retribution toward those who have committed the severest types of crimes like rape or murder. Others call it inhumane. The death penalty was introduced at the beginning of civilization, and my study proves it is a must-have measure of punishment in each society."

Example #4

"Is global warming a myth or something every person should be worried about? The whole planet faces the problem. People should tackle it to keep various species of plants and animals safe and prevent the Earth from ruination. Some call it the greenhouse effect. Many people are not aware of the existing threats because of lacking promotion and government participation. The essay will prove that the problems associated with global warming should be introduced to the entire population with the help of special courses and free presentations on this problem."
