Experiential Learning in Philosophy Julinna Oxley, Ramona Ilea, 2015-08-27 In this volume Julinna Oxley and Ramona Ilea bring together essays that examine and defend the use of experiential learning activities to teach philosophical terms concepts arguments and practices Experiential learning emphasizes the importance of student engagement outside the traditional classroom structure Service learning studying abroad engaging in large scale collaborative projects such as creating blogs websites and

videos and practically applying knowledge in a reflective creative and rigorous way are all forms of experiential learning. Taken together the contributions to *Experiential Learning in Philosophy* argue that teaching philosophy is about doing philosophy with others. The book is divided into two sections: essays that engage in the philosophical debate about defining and implementing experiential learning and essays that describe how to integrate experiential learning into the teaching of philosophy. *Experiential Learning in Philosophy* provides a timely reflection on best practices for teaching philosophical ideals and theories, an examination of the evolution of the discipline of philosophy and its adoption or reclamation of active modes of learning, and an anticipation of the ways in which pedagogical practices will continue to evolve in the 21st century.

An Analysis of Virginia Woolf's A Room of One's Own Tim Smith-Laing, Fiona Robinson, 2017-07-05 *A Room of One's Own* is a very clear example of how creative thinkers connect and present things in novel ways. Based on the text of a talk given by Virginia Woolf at an all-female Cambridge college, *Room* considers the subject of women and fiction. Woolf's approach is to ask why in the early 20th-century literary history presented so few examples of canonically great women writers. The common prejudices of the time suggested this was caused by and proof of women's creative and intellectual inferiority to men. Woolf argued instead that it was to do with a very simple fact: across the centuries, male-dominated society had systematically prevented women from having the educational opportunities, private spaces, and economic independence to produce great art. At a time when art was commonly considered to be a province of the mind that had no relation to economic circumstances, this was a novel proposal. More novel though was Woolf's manner of arguing and proving her contentions through a fictional account of the limits placed on even the most privileged women in everyday existence. An impressive early example of cultural materialism, *A Room of One's Own* is an exemplary encapsulation of creative thinking.

The volume includes sections on voice, the experience of writing, teaching and evaluation. Implicit throughout is Elbow's commitment to humanizing the profession and his continued emphasis on the importance of binary thinking and nonadversarial argument. The result is a compendium of a master teacher's thoughts on the relation between good pedagogy and good writing; it is sure to be of interest to all professional teachers of writing and will be a valuable book for use in graduate composition courses.
