The Impact Factor of Scientific and Scholarly Journals Tibor Braun, 2007      **Numerical Correlation between Impact Factor and Web Ranking of Electronic Scientific Journals Using Regression Analysis** Giorgos Kouropoulos, Γιώργος Κουρόπουλος, 2017-12-15 The present study attempts to examine the numerical correlation between web ranking of electronic scientific journals and impact factor of these journals using the method of regression analysis Regression analysis allows the option of investigating and predicting the numerical relationship between website ranking of scientific journals on the World Wide Web and the value of impact factor of the journals A sample of 57 publishers with 6 272 scientific journals and 50 standalone scientific journals was analyzed during research procedure In this study two different indicators about websites classification on World Wide Web were examined separately for 57 publishers and 50 standalone journals Alexa rank and Statscrops rank The electronic databases through the internet constitute the main information resources of this study about the impact factors The general conclusion that arises is that the impact factor of electronic scientific journals illustrates a very strong positive correlation with classification of websites on the World Wide Web Furthermore it is concluded that the change of web ranking as a function of impact factor is governed by a Gaussian function or rational function with lower Pearson coefficient and presents non linearly correlation Even if there is very strong correlation between impact factor and web rank for electronic journals the prediction of impact factor from web rank is not possible and presents many divergences      Accounting Journals: Scopus, Web of Science, SCImago Liudmyla Shkulipa, 2020-03-09 This book is a full guidebook among more than 218 accounting international journals with an evaluation of 3 000 publications for over the last two years It aims to help readers for selecting an appropriate journal for publishing own research in the international arena or to find the required topic for conducting further investigating or to be informed about so large scale science as accounting Here a reader will find detailed information about accounting journals in terms of Scopus Web of Science and SCImago databases In addition there are highlighted accounting journals in terms of IFRS and blockchain concentration in accounting researches nowadays The relevant aims and scope of each journal are also presented Anyway this book is an indispensable assistant for students while getting the Accounting specialization as well as teachers and scientists while conducting empirical researches in the practice and theory of the accounting field      *The Physician Scientist's Career Guide* Mark J.
