Instructive Journey Nicholas Rescher, 1997 Nicholas Rescher was born in Germany in 1928 and came to the USA at the age of ten. He attended Queens College in New York City and Princeton University where he earned his Ph.D. while still twenty-two. Since 1961 he has been University Professor of Philosophy at the University of Pittsburgh where he has also served as Chairman of the Department of Philosophy and as Director of the Center for Philosophy of Science. The author of more than seventy books in various areas of philosophy, works by Mr. Rescher have been translated into German, Spanish, French, Italian, and Japanese. One of the few contemporary exponents of philosophical idealism, Mr. Rescher has been active in the rehabilitation of the coherence theory of truth and in the reconstruction of philosophical pragmatism in line with the idealistic tradition. He has pioneered the development of inconsistency-tolerant logics and in the philosophy of science the exponential retardation theory of scientific progress based on the epistemological principle that knowledge increases merely with the logarithm of the increase in information. Books about Rescher's work have appeared in English, German, and Italian. His contributions to philosophy have been recognized repeatedly by honorary degrees awarded by universities in the U.S.A. and abroad. In 1977 it elected him an honorary member of Corpus Christi College, Oxford, and in 1983 he received an Alexander von Humboldt Humanities Prize awarded under the auspices of the Federal Republic of Germany in recognition of the research accomplishments of humanistic scholars of international distinction. In this autobiographical work Rescher describes his boyhood in Nazi Germany, his family's struggles to make a new life for themselves in the USA of the 1930s, and the vicissitudes attending his own labors as a professional philosopher. The book provides a vivid and humane portrait of the intellectual and personal formation of America's most productive philosophical author.

Portal through Mathematics: Journey to Advanced Thinking

O. A. Ivanov, 2019-10-09 Portal through Mathematics is a collection of puzzles and problems mostly on topics relating to secondary mathematics. The problems and topics are fresh and interesting and frequently surprising. One example: the puzzle that asks how much length must be added to a belt around the Earth's equator to raise it one foot has probably achieved old chestnut status. Ivanov, after explaining the surprising answer to this question, goes a step further and asks: if you grabbed that too-long belt at some point and raised it as high as possible, how high would that be? The answer to that is more surprising than the classic puzzle's answer. The book is organized into 29 themes, each a topic from algebra, geometry, or calculus, and each launched from an opening puzzle or problem. There are excursions into number theory, solid geometry, physics, and combinatorics. Always there is an emphasis on surprise and delight. And every theme begins at a level approachable with minimal background requirements. With well over 250 puzzles and problems, there is something here sure to appeal to everyone. Portal through Mathematics will be useful for prospective secondary teachers of mathematics and may

be used as a supplementary resource in university courses in algebra geometry calculus and discrete mathematics It can also be used for professional development for teachers looking for inspiration However the intended audience is much broader Every fan of mathematics will find enjoyment in it

Journey of a Country Soul Pitt G. Thome, 2016-03-03 Monsignor Felix Newton Pitt 1894 1971 was a towering figure in the history of Catholic education in the US and this definitive biography gives a shining example of an individual who dedicated his life in service of his faith and left behind an enduring legacy The book traces Pitts journey from his humble beginning as a young missionary of the 1920s in rural Kentucky to his career as an innovative educator in Louisville where he established the Catholic elementary school system that became a nationwide model for parochial education that properly educated and catechized the youth including students with special needs Along the way Father Pitt exerted an influence beyond his devoted flock as an engaging civic leader in the greater community in an era of bigotry when the Catholic Church was often under attack As a panelist on the popular TV program The Moral Side of the News Father Pitt was a pioneer of ecumenical broadcasting and a guiding force of church growth and stability during years of cultural upheaval This biography bears the fruit of exhaustive research a true labor of love Lavishly illustrated with photos of the people and places it documents the book does double duty as church

and family history joined and celebrated in one priest's life story. It features extensive eloquent excerpts from Father Pitts' diaries and letters and published articles that reveal the progress of one man's spiritual pilgrimage as he overcomes doubts from within and obstacles from without. It is an inspiring journey of faith and perseverance where a gifted young man follows his true calling by taking strength from God and his devoted mother. It will appeal not only to present-day Catholic educators and those who may be discerning a religious vocation but to any reader who believes in a higher guiding light in one's life and who holds dear the importance of family in our society.

The Islamic Society of Central Jersey: Its Historical Journey

The ISCJ History Project Team, 2018-08-30. This book tells the story of the Islamic Society of Central Jersey (ISCJ) and the pioneers who came to New Jersey from different countries of the world for education and jobs starting in the 1950s with aspirations for a good life for themselves and their children. And to provide religious guidance, the Islamic Center of Central Jersey was conceived where Muslims and Non-Muslims could go to seek true knowledge of Islam from the resident Imams, teachers, and renowned scholars from around the world.

Rocking Your World: The Emotional Journey into Critical Discourses, 2008-01-01. Rocking Your World: The Emotional Journey into Critical Discourses is an introductory text that emerged from the belief that we often learn best through personal narrative and story. This collection of real stories connects critical theory and critical pedagogy with personal transformation. It is an experiential primer in how to navigate a developing appreciation of how silent and sometimes not so silent machinations of power align themselves along axes of gender, race, class, sexual orientation, and global position, amongst others, to both conceal and perpetuate injustice and oppression. In this book, twelve authors share personal reflections of how various critical discourse communities have impacted their lives. They explore a range of professional, family, and social barriers to personal growth as teachers, professional researchers, and everyday people. They give us glimpses into the impact of positionality, the balance between activism and intellectual rigor, the obstacles to teaching critically, and more. This book would be an ideal complement to traditional texts and would provide countless opportunities to generate the kind of personal introspection and dialogue that can make studying critical pedagogy and other critical discourses a transformative experience. It is a must-read for any teacher or student interested in the power of critical theories to transform how we see the world in which we live.
