Sixty five percent of U S fourth graders are not proficient readers because their teachers have not been taught how to teach reading using evidence based methods Up to 20% of children have dyslexia Few receive the individualized teaching they need from their schools To help parents and teachers who want to teach their children using an evidence based effective method Pamela Brookes the mother of a child with dyslexia discusses their daily routine as she teaches her daughter to read using the decodable DOG ON A LOG Books series As the author of DOG ON A LOG Books Pamela also shares how to choose where in the series to start She shares how she teaches each of the phonics rules used in the book series along with the reasons for teaching the syllable types and handwriting Although this booklet is meant to guide parents and teachers using DOG ON A LOG Books the information can be adapted and applied to any systematic series of decodable books *How to Use Decodable Books to Teach Reading* is edited by Dr Nancy Mather a professor in learning

disabilities reading and writing to make sure it follows the scientific research on teaching reading This edition includes information on Steps 1 to 10 of the DOG ON A LOG phonics rules Additional steps will be added as the future decodable chapter books are created All DOG ON A LOG Books follow a structured literacy Orton Gillingham based phonics sequence You can download printable gameboards flashcards and other literacy materials at www.dogonalogbooks.com **Journeys, Grade 1 Decodable Reader Blackline Master** Reading,2010-04-14 Brain Words J. Richard Gentry,Gene P. Ouellette,2024-11-28 Gentry and Ouellette are cannonballing into the reading research pool they re making waves and these waves are moving the field of reading forward From the foreword by Mark Weakland Super Spellers In this second edition the authors have written a practical and fascinating resource that helps connect the theory and research of the neurological reading circuitry to classroom practice Molly Ness teacher educator author consultant A lot has changed since the original publication of Brain Words The first edition was very much a call for change and change has indeed happened While the science of reading has made real and substantive change within education there unfortunately remain too many misunderstandings and misinterpretations of what the science of reading is and stubborn resistance to all it has to offer Now more than ever it is vital that we work towards an understanding of the science of reading and what it has to say about teaching our students how to read Written for beginning or seasoned teachers homeschoolers teacher educators as well as parents who want to fully engage in their child s literacy development this updated and highly readable new edition presents brain science reading research and theory in ways that can be understood and directly applied in teaching ultimately leading to efficacious science of reading based literacy instruction Gentry and Ouellette show how an understanding of the science of reading can shape teaching to help make all students literate Building on their science of reading based framework of brain words dictionaries in the brain where students store and access word spelling pronunciation and meaning the authors offer a wealth of information to transform your thinking and practice They offer an updated review of models of reading developmental theory and brain research that help explain the reading brain a new exploration of how oral language provides the foundation for learning to read and write and how elements of oral language directly contribute to literacy learning throughout the school years an evolving critique of classroom practices that aren t as effective as once believed explicit guidance on how spelling can be used to teach the critical skill of word reading a deepened understanding of dyslexia through the lens of the science of reading With the insights and strategies in Brain Words you can meet your students where they are and ensure that more of them read well think well and write well **Journal of Direct Instruction** ,2004
