Selection David J. Shayler,Colin Burgess,2020-07-10 Unofficially they called themselves the TFNG or the Thirty Five New
Guys Officially they were NASA s Group 8 astronauts selected in January 1978 to train for orbital missions aboard the Space
Shuttle Prior to this time only pilots or scientists trained as pilots had been assigned to fly on America s spacecraft but with
the advent of the innovative winged spacecraft the door was finally opened to non pilots including women and minorities In
all 15 of those selected were categorised as Pilot Astronauts while the other 20 would train under the new designation of
Mission Specialist Altogether the Group 8 astronauts would be launched on a total of 103 space missions some flying only
once while others flew into orbit as many as five times Sadly four of their number would perish in the Challenger tragedy in
January 1986 In their latest collaborative effort the authors bring to life the amazing story behind the selection of the first
group of Space Shuttle astronauts examining their varied backgrounds and many accomplishments in a fresh and accessible
way through deep research and revealing interviews Throughout its remarkable 30 year history as the workhorse of NASA s
human spaceflight exploration twice halted through tragedy the Shuttle fleet performed with magnificence So too did these
35 men and women swept up in the dynamic thrust and ongoing development of America s Space Shuttle program This book
on the Group 8 Astronauts the TFNGs is an excellent summation of the individuals first selected for the new Space Shuttle
Program It provides insight into what it took to first get the Space Shuttle flying For any space enthusiast it is a must read
