The Prevention Pipeline, 1999 **Getting a Life** Benjamin Woo, 2018-03-31 Comic book superheroes fantasy kingdoms and futuristic starships have become inescapable features of today's pop culture landscape and the people we used to deride as nerds or geeks have ridden their popularity and visibility to mainstream recognition. It seems it's finally hip to be square. Yet these conventionalized representations of geek culture typically ignore the real people who have invested time and resources to make it what it is. *Getting a Life* recentres our understanding of geek culture on the everyday lives of its participants drawing on fieldwork in comic book shops game stores and conventions including in depth interviews with ordinary members of the overlapping communities of fans and enthusiasts. Benjamin Woo shows how geek culture is a set of interconnected social practices that are associated with popular media. He argues that typical depictions of mass mediated entertainment as something that isolates and pacifies its audiences are flawed because they do not account for the conversations relationships communities and identities that are created by engaging with the products of mass culture. *Getting a Life* combines engaging interview material with lucid interpretation and a clear interdisciplinary framework. The volume is both an accessible introduction to this contemporary subculture and an exploration of the ethical possibilities of a life lived with media.

The Economics of Books and Reading Samuel Cameron, 2022-11-14 This book gives an overview of the key issues related to books and reading within the field of cultural economics and identifies additional lacunae in this area of research. The field of cultural economics is surprisingly short on research on the book market and on the activity of reading compared with other more recently invented media such as films and musical recordings. In addition books and reading are strongly impacted by the disruptive innovations of digital technology and the use of online distribution platforms that fuel much of the research on the more recently invented cultural media. This book shows that the area of books and reading has had contributions in historically established areas of cultural economics and those currently exciting attention chiefly with respect to digital disruption. Finally it explains how books and reading are a fully developed rational addition model rather than something just based on the addition of past behaviour. Previously published in *Journal of Cultural Economics* Volume 43 issue 4 December 2019.

Hive Mind Fouad Sabry, 2023-07-02 What Is Hive Mind? In science fiction a group mind also known as a group ego mind coalescence or gestalt intelligence is a story device in which several minds or consciousnesses are joined into a single collective consciousness or intellect. Other names for this plot device include group ego mind coalescence and gestalt intelligence. The use of human hive minds in literature dates back at least as far as David H. Keller's *The Human Termites* and Olaf Stapledon's science fiction novel *Last and First Men* 1930 which is the first known use of the term group mind in science fiction. The first alien hive society was depicted in H. G. Wells's novel *The First Men in the Moon* 1901. However the earliest known use of the phrase hive mind in science fiction was in James H. Schmitz's *Second Night of Summer* 1950. The phrase was originally used in the context of beekeeping in 1943 and was recorded for the first
