Health-related Quality of Life of Children Pei Wang,Shunping Li,Jing Wu,Nan Luo,2024-02-20 Assessing health related quality
 of life HRQOL of Children has been a popular topic in recent years worldwide However there are several issues gaps in this
 research area which need to be addressed For instance previous studies on HRQOL of Children populations have normally
 used HRQOL instruments designed for adults These measurements may not be suitable for children as they are in a series of
 cognitive developmental stages and have different perspectives towards the relative importance of HRQOL dimensions In
 order to tackle this issue and to accurately measure children s HRQOL a set of dedicated HRQOL instruments should be first
 developed and validated The validated instruments could then be applied to the population measuring their HRQOL In
 addition the HRQOL information collected could be translated into health utility score if it is measured by utility instruments
 e g EQ 5D Y for the population Moreover the relevant studies on these issues is still lacking especially in non western
