EBOOK: Financial Accounting Theory:

European Edition DEEGAN, CRAIG, 2011-01-16 The second edition of Craig Deegan and Jeffrey Unerman's market leading text presents the various theories of financial accounting through a balanced and dynamic approach. Students are given all the tools to engage with these theories and are encouraged to critically evaluate and challenge them. Clearly written and user friendly, this new edition provides comprehensive coverage of internationally developed accounting theories from a European perspective.

Financial Accounting and Reporting Bryan J. Austin, 1999 This text is designed primarily for those introductory financial accounting courses where the focus is on a balance between the understanding and use of accounting information and its preparation. Provided with a backdrop of contemporary management and financial concerns, students will see that accounting is a significant part of the world it purports to portray and that it is not an end in itself. On the contrary, students are provided the perspective that accounting information is a critical instrument in presenting a corporation's financial picture to important external constituencies. The raising of issues and concerns springing from this orientation facilitates a focus on substance and also frames the student's learning because they have the comfort of a more familiar general business context for thinking about the accounting issue at hand.

**EBOOK: Accounting: What the Numbers Mean** David Marshall, Wayne McManus, Daniel Viele, 2013-02-16 Accounting has become known as the language of business. This new edition is written to meet the needs of those students who will not be accountants but who do need to understand accounting to learn the key language that embarks us in the business world. Marshall, the leading text in the Survey market, takes readers through the basics: what accounting information is, what it means, and how it is used. The authors help students succeed through clear and concise writing, a conceptual focus, and unparalleled technology support. In using this text, students examine financial statements and discover what they do and do not communicate. This enables them to gain the crucial decision making and problem solving skills they need in order to succeed in a professional environment.
