The Mind of Consciousness Ray Morose, 2011 The Mind of Consciousness The Mind of Consciousness is a book unfolding a new way with new process methods to evaluate your existence It is an experiential work written in textbook format that analytically delineates how and why consciousness and mind interface and function exposing the inter connective dependency of non biological consciousness and the biologically created mind Knowing how that interconnectivity interrelates provides avenues of exploration that reveal the fundamental nature of existence unveiling an innate purpose and direction embedded within consciousness This book works through all the major questions of existence using reproducible and experiential logic allowing everyone to experience the results of that exploration Throughout your life you have two realities at war with one another the primary I am reality formed from non biological consciousness and the secondary I am this or that reality formed by the biological mind You may not be aware of or even appreciate the internal conflict these two inter connective and inter dependent realities create However you experience the resultant turmoil and confusion their subliminal battles establish by not having an experiential appreciation of how those realities are formed function and potentially control your life The text delineates causation for those ongoing internal battles and outlines processes to help overcome the sense of frustration isolation and discord they generate This experiential method of examination creates empirical processes that afford you the opportunity to make an informed choice rather than a conditioned reaction providing a more secure productive directional and enjoyable life This book takes you into the core of your being turning it inside out exposing who and what you are by revealing a self created shadow world controlling your life without you being aware that control exists

Experiential Christianity Ray Morose, 2011 Experiential Christianity The main objective of this book is to illuminate the experiential arm of Christianity and by doing so redefine its devotional arm The devotional arm may guide but it takes the experiential arm to confirm By its nature experiential Christianity can bypass religious borders as it is not a dogma theology or a belief but a state of experiential being Hence can connect with and be beneficial to everyone regardless of his or her religious affiliation In this reevaluation of Christianity its living essence is revealed That exposure reveals an experiential pathway that unveils a practical foundation for a moral compass to steer one through the various hazards of daily living By learning to avoid those hazards your one and only purpose in life is revealed which is to discover the experiential reality of the statement made by Jesus that God is within you Everything else is secondary Meaning that experience is primary as it is used to define how one lives acts and thinks Based upon that experience a moral foundation naturally arises providing a cornerstone for ethical stances that cannot be manipulated or twisted by the many and varied seductive playthings engendered by self interest The depth of understanding released by the actual experiential discovery that God is within you changes your life forever you are truly reborn However that experience is not achievable by belief alone You must be willing to experientially delve into the core of your existence to discover the reality of that statement by Jesus Meaning you must experience it and not just believe it For that journey you will require intellectual knowledge of how all the internal components of your existence function and interrelate Without that knowledge you would easily become bewildered and distressed by the confusing quantity of ambiguous information that can block your pathway and in despair claim that experience is impossible Hence this book outlines all the tools you need to survive that internal journey and provides a map to begin your search Using both the tools and map is a personal decision that another cannot make for you You either do or do not There is no in between Does a non material entity referred to as God exist Yes Is it possible to logically confirm that assertion Yes Is a personal connection to that entity possible Absolutely That personal connection is not hiding You are hiding from it This book provides all the necessary information to realize that connection When that realization is a living reality it transforms belief into actuality establishing the cornerstone of an indestructible faith that underpins every thought and action in your life That experience adds experiential authenticity to your life confirming your eternal career has begun and that beginning has no end

In Quest of a Vital Protestant Center George Demetrion, 2014-10-06 In Quest of a Vital Protestant Center probes the relationship between Scripture and culture in twentieth century US theology and biblical studies It points to the necessity of turning to what Karl Barth has referred to as the strange new world within the Bible for any revitalization of mainline Protestantism in the tradition of the Protestant Reformers in critical dialogue with serious evangelical theology The study includes a historical overview underlying what Demetrion refers to as the fundamentalist modernist great divide which continues to resonate powerfully in contemporary US Protestant thought and culture Demetrion offers an in depth exploration of four representative twentieth century Protestant theologians and biblical scholars spanning from the conservative evangelical theology of J I Packer to the postliberal dialectical theology of Walter Brueggemann The book includes a chapter on the neo orthodox legacy as a mediating resource in bringing evangelical and postliberal theology into dialogue with the core issues of theology biblical hermeneutics and religious culture Demetrion concludes with a critically empathetic review of the postliberal dialectical theology of Douglas J Hall and the evangelical narrative theology of Richard Lints In linking evangelical postliberal and neo orthodox theology to a common search for a vital Protestant center this book will facilitate fruitful dialogue among divergent schools of Protestant
