Diane Shorrocks Taylor School of Education University of Leeds UK In September 1998 a conference was held at the
University of Leeds entitled International comparisons of pupil performance issues and policy It was arranged by two groups
within the School of Education at the University the newly formed Assessment and Evaluation Unit and the Centre for
Studies in Science and Mathematics Education Thejoint interest in international comparisons of performance had itself
arisen from earlier involvement in a follow up study of the 1995 TIMSS work in England reported in a later chapter in this
book in which the TIMSS assessment outcomes were studied alongside the outcomes from the National Curriculum testing
programme in England Some of the results of this investigation had proved both interesting and challenging so the decision
was made to promote wider discussion of some key issues by inviting contributors from all over the world to a meeting the
major aims of which were to promote an exploration of the theoretical foundations of international comparative studies of
student performance the practical problems of carrying out such studies the appropriateness of the assessment models and
