The Great School Debate Thomas L. Good, Jennifer S. Braden, 2014-04-08 This book examines reform in American education over the past fifty years and against this backdrop presents a compelling analysis of why contemporary voucher plans and charter schools have yet to fulfill the expectations of their advocates It is the only book to date to attempt a comprehensive synthesis and analysis of the emerging research base on vouchers and charter schools Suitable for courses in school policy school reform school leadership or educational issues it will also be of interest to anyone parents teachers policymakers directly involved with the charter school movement Key features of this timely new book include the following A Historical Perspective The early chapters look at American educational reform over the past fifty years and analyze why these efforts have fallen short of their goals Student Achievement Chapter 3 provides an insightful assessment of American students school achievement from 1970 to the present and in the process counters the widely held myth that overall student achievement has deteriorated Voucher Plans and Charter Schools Chapter 4 looks specifically at choice and vouchers in American education while chapters 5 7 provide a comprehensive and balanced examination of the charter school movement Policy Recommendations The book concludes with explicit policy suggestions that attempt to balance the educational needs of children and youth against the rights of schools to experiment Suggestions for developing broader coalitions to support public education particularly in the inner cities are also offered How Much Does a Great School Cost? Barbara J.

Smith,2021-04-01 After examining budgets from all kinds of schools over the past three decades two key findings emerged school budgets reflect school values intentionally or not and there are noteworthy ways to reduce the costs of operating schools This text addresses two ways to gain insight and shed light on the question How much does a great school cost Sixteen educators were asked about their perceptions of greatness in schools innovations worthy of pursuit and barriers to change This examination unpacks the expenditures and revenue options in existing schools as well as costs associated with an envisioned New School This account addresses both an analysis of what is and what could be at the same time as revealing innovative ways to save on schooling expenditures and think differently about schools as potential revenue generating institutions Changing mindsets is at the core of school improvement and while greatness may be defined in different ways the budget will reflect what matters in an institution A great school may not cost as much as you might think but the willingness to re purpose funds and generate revenue can help jump start the engines of change **The Great**

Homes, and Great Schools Karen Benjamin,2025-06-09 Good Parents Better Homes and Great Schools examines how white residential developers planning consultants and their allies in government strategically replaced block level segregation with segregation at the neighborhood level in New South cities such as Atlanta Baltimore Birmingham Houston Raleigh and Winston Salem Going beyond the well known Home Owners Loan Corporation maps of the 1930s Karen Benjamin traces segregation tactics back to the late nineteenth century when this public private partnership laid the groundwork for the nationwide segregation strategies codified by the New Deal This book links the tactics of residential and school segregation

to prevailing middle class ideas about what constitutes good parenting ensuring the longevity of both practices By focusing on efforts that specifically targeted parents Benjamin not only adds a new dimension to the history of residential segregation but also helps explain why that legacy has been so difficult to undo **Excluded** Richard D Kahlenberg,2023-07-11 An indictment of America s housing policy that reveals the social engineering underlying our segregation by economic class the social and political fallout that result and what we can do about it The last acceptable form of prejudice in America is based on class and executed through state sponsored economic discrimination which is hard to see because it is much more subtle than raw racism While the American meritocracy officially denounces prejudice based on race and gender it has spawned a new form of bias against those with less education and income Millions of working class Americans have their opportunity blocked by exclusionary snob zoning These government policies make housing unaffordable frustrate the goals of the civil rights movement and lock in inequality in our urban and suburban landscapes Through moving accounts of families excluded from economic and social opportunity as they are hemmed in through new redlining that limits the type of housing that can be built Richard Kahlenberg vividly illustrates why America has a housing crisis He also illustrates why economic segregation matters since where you live affects access to transportation employment opportunities decent health care and good schools He shows that housing choice has been socially engineered to the benefit of the affluent and that astonishingly the most restrictive zoning is found in politically liberal cities where racial views are more progressive Despite this there is hope Kahlenberg tells the inspiring stories of growing number of local and national movements working to tear down the walls that inflicts so much damage on the lives of millions of Americans **Creating School Partnerships that Work** Frances K. Virginia School Report ... Biennial Report [etc.]
 Virginia. Department of Education, 1910 *The Race Controversy in American Education* Lillian Dowdell Drakeford Ph.D., 2015-07-28 In this unique two volume work expert scholars and practitioners examine race and racism in public education tackling controversial educational issues such as the school to prison pipeline charter schools school funding affirmative action and racialized curricula This work is built on the premise that recent efforts to advance color blind race neutral educational policies and reforms have not only proven ineffective in achieving racial equity and equality of educational opportunities and outcomes in America s public schools but also exacerbated existing inequalities That point is made through a collection of essays that examine the consequences of racial inequality on the school experience and success of students of color and other historically marginalized populations Addressing K 12 education and higher education in historically black as well as predominantly white institutions the work probes the impact of race and racism on education policies and reforms to determine the role schools school processes and school structures play in the perpetuation of racial inequality in American education Each volume validates the impact of race on teaching and learning and exposes the ways in which racism manifests itself in U S schools In addition practical recommendations are presented that may be used to confront and eradicate racism in education By exposing what happens when issues of race and racism are marginalized or ignored this collection will prepare readers to resist and perhaps finally overcome the racial inequality that plagues America s schools

Saving Can-Do Philip K. Howard, 2025-09-23 Frustration with government is widespread but neither party has a vision for making things work sensibly In Saving Can Do Philip K Howard shows how to revive our freedom to roll up our

sleeves and act like Americans again All societies periodically undergo a major shift in the social order America is at one of those moments of change but neither political party is offering a vision for overhaul President Trump s approach to government is to swing a wrecking ball at the status quo But how will Washington work better the day after DOGE Democrats are in denial waiting their turn to run a bloated government that Americans increasingly loathe In this brief bold book Philip K Howard the civic philosopher who advises leaders of both sides offers a dramatically simpler governing vision Replace red tape with responsibility Let Americans use their judgment Let other Americans hold them accountable for their results and their values In *Saving Can Do* best selling author Philip K Howard unlocks the quandary of populist resentment and also of broken government Nothing works as it should because red tape has strangled common sense Of course people don t get along we re not allowed to be ourselves The geniuses in the 1960s tried to create a government better than people Just follow the rules Or prove that your judgment about someone is fair But how do you prove who is selfish or doesn t try hard Bureaucracy makes people go brain dead so focused on mindless compliance that they can t solve the problem before them America is flailing in legal quicksand The solution is a new governing framework that allows Americans to roll up their sleeves and take responsibility We must scrap the red tape state What s required is a multi year effort to replace these massive failed bureaucracies with simpler codes that are activated by people using their judgment The idea is not radical but traditional it s the operating philosophy of the Constitution As America approaches the 250th anniversary of the revolution it s time to reclaim the magic of America s unique can do culture
