Revision: Without special title Tongass National Forest (Alaska),1990 **Tongass National Forest (N.F.), Land Management Plan Revision: Environmental Impact Statement** ,1997 **Pioneering Conservation in Alaska** Ken Ross,2017-10-01 A companion volume to Environmental Conflict in Alaska Pioneering Conservation in Alaska chronicles the central land and wildlife issues and the growth of environmental conservation in Alaska during its Russian and territorial eras The Alaskan frontier tempted fur traders whalers salmon fishers gold miners hunters and oilmen to take what they could without regard for long term consequences Wildlife species ecosystems and Native cultures suffered sometimes irreparably Damage to wildlife and lands drew the attention of environmentalists including John Muir who applied their influence to enact wildlife protection laws and set aside lands for conservation Alaska served as a testing ground for emergent national resource policy in the United States as environmental values of species and ecosystem sustainability replaced the

unrestrained exploitation of Alaska's early frontier days. Efforts of conservation leaders and the territory's isolation, small human population, and late development prevented widespread destruction and gave Americans a unique opportunity to protect some of the world's most pristine wilderness. Enhanced by more than 100 photographs, *Pioneering Conservation in Alaska* illustrates the historical precedents for current natural resource disputes in Alaska and will fascinate readers interested in wildlife and conservation. *Herring and People of the North Pacific* Thomas F. Thornton, Madonna L. Moss, 2021-01-31 A unique look at Indigenous knowledge, fisheries management, and marine ecology. Herring are vital to the productivity and health of marine systems and socio-ecologically. Pacific herring *Clupea pallasii* is one of the most important fish species in the Northern Hemisphere. Human dependence on herring has evolved for millennia through interactions with key spawning areas, but humans have also significantly impacted the species' distribution and abundance. Combining ethnological, historical, archaeological, and political perspectives with comparative reference to other North Pacific cultures, *Herring and People of the North Pacific* traces fishery development in Southeast Alaska from precontact Indigenous relationships with herring to postcontact focus on herring products. Revealing new findings about current herring stocks as well as the fish's significance to the conservation of intraspecies biodiversity, the book explores the role of traditional local knowledge in combination with archeological, historical, and biological data in both understanding marine ecology and restoring herring to their former abundance. *Merchant Vessels of the United States*, 1989 **Congressional Record** United States Congress, 1992 The *Congressional Record* is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The *Congressional Record* began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837, and the *Congressional Globe* 1833-1873.
