History Paper Trial Exam 2014 Gauteng:

Exploring decolonising themes in SA sport history Francois Johannes Cleophas,2018-01-01 In an effort to understand how the absences of the colonial subject in sport were engineered and how colonial narratives became fixed in the literature and minds of South Africans Exploring Decolonising Themes in SA Sport History Issues and Challenges attempts a full scale restructuring and rewriting of the history of sport in South Africa to include black South Africans and thereby places them on the forefront of a colonial history The book includes the articulations of academic researchers professionals and retired sportspeople who were requested to explore their unique areas of interest in sport from the perspective of themes in South African sport history They place themselves at the centre of discourses that dispel myths that blacks had no sport significance prior to 1994 The book ultimately challenges this spirit of the past where there was only one narrative a white male sport tradition Rather than adapting past colonial and apartheid narratives this work seeks to fundamentally replace and supersede them

The Infamous Dakota War Trials of 1862 John A. Haymond,2016-05-19 The U S Dakota War the bloodiest Indian war of the 19th century erupted in southwestern Minnesota during the summer of 1862 In the war s aftermath a hastily convened commission of five army officers conducted trials of 391 Indians charged with murder and massacre In 36 days 303 Dakota men were sentenced to death In the largest simultaneous execution in American history 38 were hanged on a single gallows on December 26 1862 an incident now widely considered an act of revenge rather than judicial punishment Providing fresh insight into this controversial event this book examines the Dakota War trials from the perspective of 19th century military law The author discusses the causes and far reaching consequences of the war the claims of widespread atrocities the modern debate over the role of culture in lawful warfare and how the war has been depicted by historians

And Justice For All Stephen Ellmann,2020-07-15 And Justice For All Arthur Chaskalson and the Struggle for Equality in South Africa is a biography of a remarkable life lived in service both to law and to the struggle for social change and justice The social change it describes is the victory over apartheid which was won on several fronts and through the efforts of people in many nations but an important one of those fronts lay in the courts of South Africa itself Arthur Chaskalson enters the historical record in 1963 when he and a team of talented lawyers represented Nelson Mandela in the historic Rivonia Trial Chaskalson organized legal and non profit organizations and served as the first president of South Africa s Constitutional Court which would eventually lead to the deconstruction of apartheid legislation In exploring his life and career we appreciate more clearly the roles lawyers can play in social change and the achievement of a just social order and at the same time we gain insight into the combination of upbringing experience and character that shapes a man first into a cause lawyer and then into a path breaking and foundation laying judge

A Cultural History of Tragedy in the Age of Enlightenment Mitchell Greenberg,2021-05-20 The period covered by this volume in the Cultural History of Tragedy set is bookended by two shockingly similar historical events the beheading of a king Charles I of England in 1649

and Louis XIV of France in 1793 The period between these two dates saw enormous political social and economic changes that altered European society s cultural life Tragedy which had dominated the European stage at the beginning of this period gradually saw itself replaced by new literary forms culminating in the gradual decline of theatrical tragedy from the heights it had reached in the 1660s The dominance of France s military and cultural prestige during this period is reflected in the important almost exclusive space dedicated in this volume to the French stage This book covers the tragedies of France s two greatest playwrights Pierre Corneille 1606 84 and Jean Racine 1639 99 which would dominate not only the French stage but through translations and adaptations became the model of tragic theater across Europe finding imitators in England Dryden Italy Alfieri and as far afield as Russia This dominance continued well into the 18th century with the triumph of Voltaire s tragedies This volume also examines how the writings of Diderot and Lessing changed the direction of theatre and how after the Revolution in the writings of Goethe Shiller Hegel tragedy and the tragic were reimaged and became the sign of European modernity Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality *The Human Rights Industry* Alfred de Zayas,2023-08-01 The promotion and protection of human rights is a pillar of the United Nations enshrined in the Charter the international bill of rights elaborated in General Assembly resolutions and declarations and buttressed by monitoring mechanisms and regional human rights courts After WWII the world demanded respect for collective and individual rights and freedoms including the right to live in peace i e freedom from fear and want the right to food water health shelter belief and expression Human dignity was understood as an inalienable entitlement of every member of the human family rights that were juridical justiciable and enforceable It did not take long for these noble goals to be politicized Many States systematically weaponize human rights for geopolitics A human rights industry operates at all levels and instrumentalizes values with the complicity of diplomats politicians non governmental organizations academics journalists independent experts rapporteurs secretariat members and media conglomerates This book addresses the decisive role played by major governmental and private agencies such as the National Endowment for Democracy USAID elite think tanks Council on Foreign Relations Trilateral Commission World Economic Forum and others in shaping a perception of human rights that primarily serves geopolitical interests Major non governmental organizations that once were truly independent including Amnesty and HRW today belong to the leading narrative managers The voting record in the General Assembly and Human Rights Council by China Russia the United States Canada UK EU OIC Group of 77 Non aligned movement etc documents who supports and who subverts human rights Why do the Council and NGOs practice double standards and allow States to brazenly lie blackmail and bully weaker States Under the pretext of providing humanitarian assistance lethal military interventions are conducted e g in Libya emblematic example of how the noble idea of the responsibility to protect was corrupted Propagandistic use of the words human rights democracy

Hamidaddin,2019-09-04 In recent years an internal debate has arisen in Saudi Arabia on the legitimacy of Saudi religion and

the foundations of Islam Sparked by concerns such as the absence of divine intervention in the Syrian civil war the question

of the Muslim monopoly on heaven and politically subversive differentiations between Saudi religion and Islam the challenge

within Saudi Arabia to religious orthodoxy has never been greater *Tweeted Heresies* explores the emergence of these

patterns of non belief and the responses to them from the Salafi Wahhabi religious institutions Previous studies have focused

on formal institutions and their role in religious change Abdullah Hamidaddin focuses on individuals who took advantage of

social media during a period of relative freedom of expression to criticize religion and question the most fundamental aspects

of Saudi society its politics religion social justice gender and sexual relations and the future of the country These individuals

mounted a direct challenge to religious orthodoxy whether through calls for religious reform or even more provocatively debates over concepts of deity morality and duty to Allah For the foreseeable future criticism is limited to virtual spaces and the conversation was especially active on Twitter Tweeted Heresies examines a large body of tweets as well as interviews with Saudis about how their understanding and critique of religion have developed over the course of their lives The result is a uniquely revealing portrait of an otherwise hidden current of religious change that promises to ultimately transform Saudi society
